

## D.W. PECK WAS ASKED TO VIOLATE OATH

New Yorker Testifies That  
Sulzer Requested Him to Deny  
Having Made Contribution

### RELATES THE CONVERSATION

Witness States Emphatically That He  
Could Not Have Been Mistaken About a  
Single Word—Counsel Is Confounded

### ASKED MORGENTHAU TO BE "EASY"

ALBANY, N. Y., Sept. 26.—Governor William Sulzer tried to persuade contributors to his campaign fund not to testify against him, according to evidence adduced at his impeachment trial today.

Asked Peck to Violate Oath.  
He asked Duncan W. Peck, state superintendent of public works, who gave \$500 to the fund to violate his oath on the witness stand in event he should be called to testify before the Frawley investigating committee, Peck swore. The governor, Peck asserted, had told him that he, too, would deny having received contributions. This conversation he said was held in the governor's office at the capitol. The witness was examined by John B. Stanchfield as to the precise words used by the governor.

"What did he say?"  
He said: "Do as I shall do, deny it."

"What else was said, if anything?"  
"I said: 'I suppose I shall be under oath,' he said, 'that is nothing, forget it.'"

Attorney Hanman cross-examining for the defense asked Peck if it were possible that he could have been mistaken about a single word that passed between him and the governor.  
"Not a word," Peck replied emphatically.

"No Strings" to Contribution.  
Peck at the time of his contribution held his present position but told the governor, he said, that there were "no strings" to the gift and that he did not feel that he was obligated to re-appoint him. Peck was re-appointed.

The governor asked Henry W. Morgenthau, ambassador to Turkey, who contributed \$1,000, to be "easy on him" and to "treat the affair between us as personal" in the event that he should be called to testify. This Mr. Morgenthau swore to when recalled to the stand today. He said the request was made by the governor over the long distance telephone on Sept. 2 last.

The governor's attorneys gave indications of being completely confounded by the testimony of these two witnesses. None of them had the faintest inkling, it was learned, that such accusations were to be brought by the attorneys for the assembly managers.

Crocker Contributed \$2,000.  
It was further brought out that Richard Crocker, Jr., son of the former leader of Tammany, had contributed a \$2,000 check payable at the request of Sulzer to the order of "cash" and that the check was cashed by Frederick L. Colwell, alleged to have been the governor's agent in his Wall street transactions.

Crocker testified that the governor wanted the check in a convenient form to cash it immediately because he was in a hurry to start on his campaign trip through the state. This was on October 16 but it developed that Colwell did not cash the check until Oct. 31.

The latter testimony was given by William B. Houghton, paying teller of the Equitable Trust company of New York, who said that Colwell was his Sunday school teacher.

The Crocker check was one of several unreported campaign contributions which were the subject of testimony today. John W. Cox, Thomas W. Brady, John T. Dooley, J. Temple Gwathmey, Luitpold Mendelbaum and Judge Lewis J. Conlan, all of New York, testified that they had contributed checks or cash ranging from \$100 to \$1,000, none of which was mentioned in the governor's sworn statement of campaign contributions. They also testified that their contributions had been given to the governor for other purposes than campaign expenses if he wished to use them.

The prosecution brought in today the first evidence to support the charges that the governor used some of his campaign funds to speculate in Wall street. Phillip Boyer, head of the New York Stock Exchange firm of Boyer, Griswold & Co., and two of his employees, testified to the purchase by Colwell of \$12,000 of the Big Four stock which was paid for by seven checks given by Governor Sulzer. These checks were those of Theodore W. Meyers, John Linn, Lyman A. Spaulding, Edward F. O'Dwyer, John W. Cox, The Frank W. Strauss company and John T. Dooley.

Asks Liberal Ruling.  
Senator DuPamel of Brooklyn, elected on an Independence League ticket, today asked for a liberal ruling by the presiding judge on technical legal questions.

## REPORT EXTENSIVE THEFTS IN U. S. MINT

RUMORS OF \$30,000 IN GOLD BEING  
TAKEN ARE CIRCULATED

Supt. Shanahan of San Francisco  
Mint Retires—One Story Says  
Count of Currency Reveals Sys-  
tematic Pilfering of the Sacks.

SAN FRANCISCO, Sept. 26.—A circumstantial report published here late today of the discovery of extensive thefts in the United States mint brought neither confirmation nor denial from the mint officials. Superintendent T. W. H. Shanahan, who succeeded Frank Leach in that position, said in response to all inquiries that any statement concerning the report must come from Washington.

According to the rumor, which is said to have had its origin in the gossip of mint employees, a count of the currency stored in the mint which has been in progress for some weeks, has revealed systematic pilfering from the sacks. In most instances the thefts amounted to no more than two or three dollars from any one sack but there were persistent reports today that a bag of iron washers had been found in the vaults, having been substituted for \$30,000 gold.

Thirty government agents have been at work on the count of the coin which was ordered preparatory to a change in the office of the sub-treasurer in this city. Some days will be required to complete the count.

According to the rumor, suspicion has been directed to certain employees of the mint.

### THOMAS VAUGHN ADMITS THAT HE STABBED ALPHONSO DURAND

Claims He and Thomas Bond of This  
City Were Escorting Two Young  
Women Home When They Were  
Attacked by Durand and Rupp.

Quincy, Ill., Sept. 26.—Thomas Vaughn, a civil service employee at the Illinois Soldiers and Sailors Home, today solved a local mystery of two days' standing when he admitted that he stabbed Alphonso Durand, aged 17, late Wednesday night. Vaughn said that he and Thomas Bond, another civil service employee, now located at Jacksonville, Ill., were escorting two young women home when they were attacked by Durand and Carl Rupp. The knife was used in self-defense.

Rupp told the authorities that he found Durand lying in the street unconscious and helped him to a surgeon for treatment. Durand's wound penetrated one of his lungs and his recovery is doubtful.

He has claimed not to have known who his assailants were and denied being with Rupp. Rupp was also placed under arrest today.

### GOV. FELKER ASSURES THAW'S COUNSEL HE WILL EXTEND TIME

One Attorney States Additional Pre-  
cedents Bearing on Extradition  
Have Been Discovered.

Concord, N. H., Sept. 26.—Counsel for Harry K. Thaw received formal assurance from Governor Felker today that he would grant their request for an extension to October 6th, of the time for filing briefs in the extradition proceedings. One of the attorneys said that their work was being carried on as rapidly as possible but that since the hearing before Governor Felker last Tuesday, additional precedents bearing on the situation had been discovered. These will be incorporated he said, in the documents to be placed in the governor's hands.

### ELECTRICAL WORKERS ELECT.

Denver, Colo., Sept. 26.—The result of the referendum vote for officers was announced today by the annual convention of the International Brotherhood of Electrical Workers, as follows:  
President—J. J. Reid, Erie, Pa.  
Secretary—J. W. Murphy, Springfield, Ill.  
Treasurer—L. W. E. Kimball, Boston.

Vice presidents—Oliver Meyers, Toledo; William Pollard, St. Louis; W. J. Kelley, Los Angeles; J. D. Pegg, Fort Williams, Ontario.

### FRIDAY IN CONGRESS.

Senate.  
Not in session.  
Meets Monday.

New England bankers appeared before the banking committee on the administration currency bill.

Red Cross officers urged senate appropriations committee to provide a red cross memorial building to the northern and southern women of the civil war.

Tariff conferees continued deliberations.

House.  
Not in session.  
Meets Saturday.

conspiracy of crooks and criminals to save themselves from prosecution as a result of chicanery or of parties prompted by other ulterior motives." His remarks, the first of the kind to come from any of those sitting in the judgment, caused a stir among the spectators.

## TUG GOES THROUGH THE GATUN LOCKS

Event Marks the First Important  
Step Toward the Oper-  
ation of the Panama Canal

### GOETHALS HIGHLY PLEASED

Operations Conducted With Great Care  
and Everything Goes According to  
Schedule—Crowd Cheers Vessel

### MASSIVE LEAVES PERFORM PERFECTLY

PANAMA, Sept. 26.—The most important step thus far toward the operation of the Panama canal took place today when the sea-going tug-boat Gatun, drawing twelve and a half feet of water, was successfully passed through the Gatun locks and tonight floats on the bosom of Gatun Lake.

This was the first attempt made to operate the locks on the canal and the result was highly pleasing to Col. Goethals, chairman of the canal commission and canal officials generally.

Hundreds Witness Operation.

All day long hundreds of persons, men, women and children withstood the burning rays of the tropic sun to see the act of passing the first vessel from sea level to the level of Gatun Lake, which today had reached a height of a little over 65 feet, or within twenty feet of its normal level.

The operations were conducted with great care and everything went through according to schedule. The three chambers, upper, middle and lower, on the west side of the locks were used on this occasion. The men worked far into Thursday night making everything ready for the operation. The upper lock filled in the forenoon and this afternoon the water was admitted to the middle and lower locks, but it was not until 4:45 p. m. that the water in the lower lock had reached the level of that in the sea channel outside.

At that hour the sea gate was swung and a moment later the tug, which had been in readiness all day in the approach channel, turned its head toward the entrance.

As the vessel passed inside the lower lock chamber, a mighty cheer went up from the assembled thousands that lined the lock-wall, the tug whistle was blown and all the whistles in the neighborhood joined in the chorus.

The Gatun was in charge of Captain Stewart. Among the party on board were Col. William L. Sibert, division engineer of the Atlantic division of the canal and under whose supervision the Gatun locks were built; Col. Harry F. Hodges, assistant chief engineer and designer of the canal locks and the operating machinery; and Major J. P. Jervoy, who has had personal charge of the machinery construction of the locks. Col. Goethals was on hand all day, but did not make the trip.

Tug Appears Like Toy Boat.

The tug, gaily decorated in the roomy lock chambers, appeared like a toy boat in a tub. Its navigation was personally supervised by W. G. Comber, head of the dredging operations of the canal. The vessel was raised to the middle level at 5:45 p. m. and passed into the upper chamber at 6:15 p. m. Then at 6:42 p. m. the last gate was swung and, although the tropic night had fallen, the waiting crowd remained and watched the tug sail out on the placid water of Gatun Lake. The rousing demonstration of the early afternoon was then repeated.

The massive 500-ton levers of the lock gates performed their functions perfectly, working with the precision and nicety of a well oiled door.

Hints at Second Canal.

London, Sept. 26.—The Standard today hints that English capital, represented by Pearson and Son will give Colombia a chance to avenge herself against Panama by constructing a canal to ocean canal by way of the Atrato and Cupica rivers.

"What," says the Standard, "is to prevent Colombia if it has sufficient support from foreign capitalists, from making this canal itself and thereby setting up a formidable rival to the enterprise which is now rapidly approaching completion."

The assertion of the Monroe doctrine to prevent the building of the canal would be, according to the editorial, "equivalent to the assertion of sovereign rights over every American republic which so far is not a pretension American statesman have put forward."

LEVYS NATION-WIDE  
STRIKE ASSESSMENT.  
Washington, Sept. 26.—The executive council of the American Federation of Labor, in session here, finally decided today to levy a nation-wide assessment on its membership for the benefit of the Calumet copper mine strikers and also to raise money for that purpose by subscription.

ANNOUNCE LARGE GIFTS.  
Chicago, Sept. 26.—Gifts to Northwestern university, aggregating \$800,000 were announced today. Norman W. Harris presented \$250,000, most of which is to be used to promote study in history, political science and economics.

## MANY TO BE HEARD ON CURRENCY BILL

SENATE COMMITTEE ADJOURNS SES-  
SIONS UNTIL MONDAY

Wide Range of Disagreement De-  
velops Among Members From  
Hearings—Nebraska Bankers Op-  
pose Administration Measure.

WASHINGTON, Sept. 26.—With enough witnesses desiring to be heard to consume two or three weeks of time and requests for hearings on the administration currency bill still coming in, the senate committee today adjourned until Monday. The day had been spent hearing protests of New England bankers against provisions of the currency bill. The committee will resume on Monday with a continuation of the examination of Samuel Untermyer, who spent a part of two days before the committee this week.

The hearings up to date have developed a wide range of disagreement among the members of the committee. So divergent are the views expressed in the examination of witnesses that some members believe the committee will be unable to agree upon a bill built along the lines of the administration measure. If the disagreements continue, it is possible that after the views of bankers and business men from all over the country have been considered an attempt will be made to report the bill to the senate without recommendation. In this event a series of minority reports probably would accompany the measure, each condemning different provisions or suggesting different changes.

Although scores of requests are being received from prospective witnesses for an opportunity to be heard, Chairman Owen said today the hearings could be concluded by the middle of next week.

Nebraska Bankers Oppose Bill.  
Lincoln, Neb., Sept. 26.—The Nebraska Bankers' association at its concluding session this afternoon expressed opposition to the administration currency bill by declaring its chief provisions too radical and a departure from safe banking methods. The resolutions adopted by the association declare in favor of a revision of the pending bill along the lines advocated at the Chicago conference of bankers and say that five, instead of twelve, federal reserve banks should be maintained.

Members in the federal reserve banks should be optional, instead of compulsory, it is contended, because, it is asserted, it is an injustice to small country banks which can never hope to reap any benefits by becoming members.

The resolutions concede the right of the government to regulate national banks but insist that only bank owners should operate and control.

### JUDGE OPPOSES RECALL OF JUDICIAL DECISIONS

Chief Justice of Illinois Supreme  
Court Addresses Missouri Bar As-  
sociation.

Kansas City, Mo., Sept. 26.—The recall of judicial decisions was opposed in a speech by Judge Frank K. Dunn, chief justice of the supreme court of Illinois, before the Missouri Bar association today.

"Under our theory of government," he said, "the people may do as they choose and may, if they will, make the decisions of courts subject to review by popular election. But if we do this, we will depart from the principle of a limit constitution and adopt the French notion contained in the declaration of the rights of man. We will destroy our only safeguard against the oppression of the majority and when the majority violates the fundamental rights of the minority, we have insurrection and force as our only remedy."

W. R. Vance, dean of the law department of the University of Minnesota, criticized the primary system of choosing judicial candidates. "To me it seems the election of the judiciary is bad enough," he said, "but the situation is made even worse by the primary laws that have been passed by so many states. Under these laws only those persons can be voted for who are willing to put themselves forward as candidates for the nominations. The people at large, however honest in their intent, cannot possibly determine a man's fitness for judicial office."

Henry D. Esterbrook, of New York, speaking at the banquet of the association tonight, said the recall of judges and judicial decisions, "wherever and whenever tried, has in the long run done evil rather than good."

"It was considered and rejected by the makers of our constitution," he said. "As any one must perceive who stops to think, it means a government of men instead of a government of laws."

MITCHELL ACCEPTS

INDORSEMENT  
New York, Sept. 26.—John Purroy Mitchell, fusion candidate for mayor, accepted the Independence League indorsement today after selecting Robert Adamson, who was the secretary of the late Mayor Gaynor as his campaign manager.

Chicago, Sept. 26.—Members of the board of trade today voted to abolish the cash grain "call" which was the basis of an attack made by the federal government in an anti-trust suit filed a year ago.

## PENNSYLVANIA TO SELL COAL STOCK

President Rea Announces Road  
Will Dispose of Its Security  
Holdings In Anthracite

### DECLINES TO GIVE REASONS

Is Believed to Be First Move on Part of  
Company to Relieve Itself of Property  
Extraneous to Transportation

### PLEASES DEPARTMENT OF JUSTICE

PHILADELPHIA, Sept. 26.—What is believed to be the first move on the part of the Pennsylvania railroad gradually to relieve itself of property extraneous to transportation was made today when President Samuel Rea announced that the board of directors had decided to dispose of its security holdings in all Anthracite coal companies that are attached to its system. The simple statement that the company intended to sell its hard coal interests was all that could be gleaned at the general office of the corporation. Officials declined to give reasons for the proposed sale or tell who the prospective purchaser might be.

To Sell Steel Stock.

The announcement came close upon the report that the big railroad corporation is about ready to divest itself of its controlling interests in the Carnegie Steel company, which amounts to about \$22,000,000. The Pennsylvania also holds substantial interests in the Pennsylvania Steel company and the Maryland Steel company.

In the absence of any official information as to the reason or directing itself of its hard coal property, a report spread that the Pennsylvania officials, taking note of the signs of the times, were planning to dispose of the property in order not to come in conflict with the commodities clause of the federal law, which prohibits railroads from transporting articles or commodities mined or manufactured by them or under their authority. Pennsylvania officials would not discuss the report, in financial circles, it was suggested that there might be a double purpose in selling the coal property; to avoid possible friction with the federal government and to confine its capital to transportation, thus avoiding the annoyances of operating outside concerns.

The Pennsylvania railroad controlled its Anthracite coal properties largely through the Susquehanna Coal company. It mined and transported approximately ten per cent of the total Anthracite produced, very little of which came to tide water.

Depart of Justice Pleased.

Washington, Sept. 26.—Announcement that the Pennsylvania railroad proposed to dispose of its Anthracite Mining properties was particularly pleasing to officials of the department of justice as being in conformity with the government's position that the coal carrying railroads should be divorced from coal mining companies in the interest of competition.

No hint of the Pennsylvania's intention had been communicated to the department of justice. Interest was manifested in the nature of the sale particularly as to whether the stocks of the coal companies would be sold to the stockholders of the Pennsylvania, resulting in simply a transfer from the corporation to the individuals that control it. Such dissolutions do not meet the approval of Attorney General McKeenolds who contends that to dissolve a combining effectively the property and business should be sold to parties not connected with the parent corporation and thus destroy all community of interest.

While the Pennsylvania's control of coal mining properties is far less extensive than that of some of the other coal carrying railroads officials looked upon the days' development as indicating that the government's "coal trust" policy was having its moral effect. Many officials believe that Attorney General McKeenolds' attack on the "hard coal trust" probably will be the most important and far-reaching move he will make during his term. Suits under both the Sherman anti-trust law and the commodities clause of the interstate commerce act already are pending against the Reading and the Lackawanna railroads in an effort to separate those roads from their coal mining companies. The question of similarly dealing with the Erie and Lehigh Valley is under consideration.

### FAMILY FEUD CULMINATES IN SHOOTING OF MRS. PATTERSON

Trouble Originated in the Trespass  
of a Chicken—Physicians State  
Victim Will Die.

Springfield, Mo., Sept. 26.—A family feud, which originated in the trespass of a chicken and which has been marked during the last few months by numerous arrests on both sides of the fence, culminated here today in the shooting of Mrs. Ira Patterson by Mrs. Ilo Stedman, her next door neighbor. Physicians say Mrs. Patterson will die.

Mrs. Stedman has been arrested on a charge of felonious assault and her sister-in-law, Miss Evelyn Stedman, has been arrested for complicity in the shooting.

## DEPUTIES ABANDON SEARCH FOR BANDITS

HOLD-UP OF EXPRESS IN HANDS OF  
SPECIAL RAILROAD OFFICERS

Five Suspects Taken at Eutaw, Ala.  
—All Deny Connection With Hold-  
Up—Conservative Estimates Place  
Amount of Loot at \$50,000.

Tuscaloosa, Ala., Sept. 26.—Deputy sheriffs from Birmingham and Montgomery and armed farmers of Tuscaloosa county have abandoned the search for the three men who held-up and robbed the Alabama Great Southern train at Bibbville Siding, Ala., last night and the case is now entirely in the hands of the railroad special officers.

Five men have been arrested at Eutaw, Ala., below Tuscaloosa, none of whom is over 30 years old and five others have been taken to the Tuscaloosa county jail by special agents. All of these men deny connection with the hold-up. Various estimates tonight place the amount of booty secured as high as \$100,000. Conservative estimates, however, set the amount of loot at \$50,000, including a heavy shipment of currency from the east to New Orleans. This cannot be verified, however at this point.

Mail Clerk Leander Poole today gave out the following version of the robbery:

"The robbery was committed by three masked men, two of whom were young and nervous. One did considerable promiscuous shooting and cursing in the mail car. Bullets passing through the mail car caused the loss of four men. The last charge of dynamite that blew the express safe was very heavy. It jarred us 100 yards away. They had lights that threw rays so that they could see us and we couldn't see them."

"I believe I can identify the robber who did the shooting and cursing. I got a good look at him."

The killing today of Deputy Jim Bonner of Birmingham was accidental. The posse of which he was a member was six miles north of Tuscaloosa. They were all sitting in the caboose of the special train and in preparing to get off at Tuscaloosa Deputy W. J. Coxe of Montgomery reached over and drew his rifle toward him. The weapon was discharged, the bullet piercing the heart of Bonner, who held the dogs.

### SLAYER IMPLICATES WIDOW OF MURDERED MAN

States Mrs. Nelson Not Only Planned  
Assassination But Gave Signal to  
Fire the Fatal Shot.

Los Angeles, Calif., Sept. 26.—That Mrs. Rose Nelson of Florence, who is held as an accomplice in the murder of her husband, Frank E. Nelson, not only planned his assassination but gave his slayer the signal to fire the fatal shot, was the statement of James F. Cook, confessed murderer, at the woman's preliminary examination today. Cook testified that Mrs. Nelson gave him \$200 with which to hire a man to kill Nelson and that he purchased a revolver with this part of the money. On the day of the crime he said he was lurking outside the Nelson home when Nelson left for his work. Mrs. Nelson appeared at the window and signalled him to shoot.

Cook said he and Mrs. Nelson had planned to elope after the homicide.

### POHLMAN EXPLAINS LOVE LETTERS WRITTEN TO A STENOGRAPHER

Defendant in Divorce Suit States He  
Was Assigned Task of Entertain-  
ing Girl by Seattle Structural Iron  
Workers.

Seattle, Wash., Sept. 26.—Henry W. Pohlman, former business agent of the Seattle Structural Iron Workers' union, who was a prominent witness in the Los Angeles and Indianapolis dynamite investigation and who is being sued by his wife, Anabel Pohlman, for divorce, testified today, explaining love letters he wrote to a stenographer in Indianapolis.

Pohlman swore that the stenographer had been employed by the national headquarters of the steel workers and that "the enemy" represented by a detective agency was trying to induce her to testify against the union men.

To Pohlman was assigned the task, he said, of taking the stenographer to theatres, parties and dances and even making love to her to keep her loyal to her employers.

WEATHER INDICATIONS  
AND TEMPERATURES

Washington, Sept. 26.—For Illinois: Fair Saturday, Sunday fair, warmer, light variable winds.

Temperatures.

## CONFEREES FINISH TARIFF MEASURE

Bill Is a Completed Document  
Except for Provision Taxing  
Trades In Cotton Futures

### CALL REPUBLICAN MEMBERS

Meeting of Full Committee Will Be Held  
Monday Morning—Report to Be Pre-  
sented to House Monday Afternoon

### LEADERS CONSULT THE PRESIDENT

WASHINGTON, Sept. 26.—The tariff bill is tonight a completed document, except from the provision taxing trades in cotton futures. After more than two weeks of constant work behind closed doors, the eight Democrats representing senate and house, as members of the conference committee late today settled the last of their other differences and reached the final decision that they could not argue on the cotton futures tax. Tomorrow the conference report will be taken up for revision by the Democrats. The six Republican members of the conference committee were summoned today, to meet at a full committee meeting Monday morning. The formality of submitting the conference report to the Republicans is not expected to take much time and it is believed the report will be presented to the house Monday afternoon by Representative Underwood.

Final Differences Adjusted.

The final differences in the bill were adjusted as follows:

The house receded from its rate of one half per cent per pound on lead ore and accepted the senate rate of three fourths cent per pound.

The senate receded from its rate of 12 1/2 per cent ad valorem on zinc ore and accepted the house rate of 10 per cent.

The house gave up its demand that the woolen tariff rates go into effect at once and agreed to the dates fixed by the senate namely: woolen goods January 1 1914; raw wool, tops and waste, December 1, 1913.

The house receded from its provisions as to cotton threads, yarns and cloths accepting the senate amendments, which revised the schedule upon a new basis of thread count.

The final agreement was reached late in the afternoon after a day in which President Wilson had again been consulted by the leaders of both houses and an effort made by each side to secure further concessions.

Expect Objection To Report.

It is expected that objection will be made to the conference report when it reaches the house Monday morning. Advocates of the cotton futures committee promise the Smith-Lever plan will endeavor to round up support in the house for a motion to lead the bill back to conference again with instructions to the conferees to adopt the compromise plan. A similar motion probably will be made in the senate. It is believed the bill cannot be completed by the two houses and sent to the president before the latter part of next week, owing to the parliamentary snags through which it must go and the new conference that must be arranged on the cotton futures question.

### ONE KILLED IN COLLISION.

St. Louis, Sept. 26.—One man was killed and five others were seriously injured in a rear-end collision between a freight and work train on the Big Four tracks at Joan, Ill., late tonight. The dead, Byron Doods, brakeman, of Hillsboro, Ill. The injured: H. A. Cavins and C. N. Morgan, conductors, both living at Mattoon, Ill., and three unidentified Greeks, section hands.

### SPARKS FROM THE WIRE

PEORIA, Ill., Sept. 26.—Fire and water tonight wrecked the newspaper plant of the Daily Die Sonne, a German publication.

PHILADELPHIA, Sept. 26.—Edward Taylor Snow, landscape painter and art collector died at his home here tonight. He was 73 years old.

JACKSON, O., Sept. 26.—As the result of action of the state inspector of boilers in condemning 20 locomotives of the Detroit, Toledo & Ironton railway, the entire system between here and Springfield was at a standstill today.

TRENTON, N. J., Sept. 26.—Samuel D. Symmes of Crawfordsville Ind. was today chosen national president by the National Camp, Patriotic Order Sons of America, at the closing session of its biennial convention here.

KANSAS CITY, Mo., Sept. 26.—Three young men held up the proprietor, the clerk and six guests of a hotel in the center of the business district here tonight. The proprietor and clerk were robbed but nothing was taken from the guests.

SPRINGFIELD, Ill., Sept. 26.—The Peoria and Range Farm Implement company of Palmyra was today adjudged bankrupt in the United States district court on its own petition. The liabilities are scheduled at \$33,587 and the assets at \$18,039.

## Diamonds Make Good Investments

A fine diamond never depreciates in value. You wear it with pride and pleasure, and it is worth what you paid for it many years after you bought it. It can always be turned into cash at its real value.

Our long acquaintance with the diamond market, and our foresight in selecting some especially choice stones before the prices advanced enable us to offer some splendid values. The stones are brilliant in color, perfectly cut, and well fitted for adornment or as an investment.

We have unusually choice stones in rings, from 1-8 to 3-8 carat, mounted in hand-made 14 K. gold mountings. Prices \$15, \$25, \$35 and \$50.

In larger stones, we are selling some beauties at a very close margin. You cannot appreciate their beauty and value unless you see them.

## MISS BLACKBURN TELLS OF CHOLERA SCOURGE IN BULGARIA

Disease Moved Down Large Numbers With Awful Rapidity—Bulgarians Have Shown Great Patriotism in Trying Times.

At the chapel exercises at Illinois Woman's college Friday morning President Harker read a letter from Miss Kate Blackburn, who has for a number of years been at the head of a school in Lovetch, Bulgaria. Miss Blackburn, who is a graduate of the college and deeply interested in its welfare wrote a letter of congratulation upon the achievement of the institution in raising the endowment fund and included in the letter a great deal of interesting information concerning conditions in Bulgaria. In part the letter was as follows:

You have doubtless kept somewhat informed of proceedings in this part of the world through the papers, but only those who have experienced the trials of the Roumanian invasion and the cholera following in order (to say nothing of those who have been in the real clutches of war) can have any adequate conception of the situation. Lovetch has had its own experiences. We have been under Roumanian rule, have been isolated from the rest of the world, even from the nearest city, Pleven, and to add a catastrophe, we have had a real outbreak of cholera, brought into the city by the evacuating Roumanian army. It is tragic enough, I can assure you. Small wonder that many of the people are discouraged to the verge of despair and become an easy prey to disease.

In the beginning of the epidemic only one doctor was available for the entire city, but now most of the Lovetch doctors have returned from the battle field and they have gotten the disease quite in check. They have done bravely considering the odds against them. Lovetch had been remarkably free from all disease during the whole of this terrible year until this came and mowed down the people by scores and hundreds. Miss Davis and I are well to date. Perhaps, never before have we so fully realized that in the midst of life we are in death, for one after another of our near neighbors and acquaintances after a few hours illness have been hurried to the grave. Of course, we are taking all possible precaution and leave the rest with the Lord. He has kept us in peace of mind and we have not felt in the least frightened or panic-stricken during any of these trying times these last months. Her leaders have made great mistakes, but for these blunders the mass of the people should not be blamed. They are innocent sufferers and more than ever deserve our sympathy. Personally they have risen in admiration since these greater trials have overtaken them.

The really true and noble will, without doubt, come out of the fire doubly refined and better fitted to fulfill the Lord's plan for them and their nation.

The cholera epidemic has made it necessary to defer school opening until some weeks later. Wishing for the college a most successful year and with most cordial greetings to yourself and Mrs. Harker, I must close.

Pray much for Bulgaria and our work here.

Sincerely yours,  
Kate B. Blackburn.

## ADVERTISED LETTERS.

Benjamin Davenport of Alexander came to the city yesterday on business in his Oakland car.

D. Estaque has gone to Chicago on business.

The wise man buys his clothing of Knoles and is always pleased.

## HABEAS CORPUS PROCEEDINGS

Acting in accordance with their intention announced several weeks since, W. N. Hairgrove and Judge M. T. Layman have filed habeas corpus proceedings in the circuit court in behalf of John Lamberto, the Italian section foreman who recently shot a negro at Yemassee. They will probably present argument before Judge Thompson today. The attorneys will maintain that Lamberto cannot properly be held in jail simply on a coroner's recommendation when a sufficient bond is offered for his release.

J. M. Ring of West Plains, Mo., is here for a visit and is being warmly greeted by his many Jacksonville friends.

W. F. Widmayer and family have removed from Sandusky street to the Robert Mutch property, 825 West College avenue.

W. B. Miser has returned from Quincy, where he attended the sessions of the Illinois State Electrical association.

## MADE LUMBER SHIPMENT.

The Crawford Lumber company, yesterday, shipped the lumber for a house to be erected in Greene county. H. E. Spencer is to build a residence on his farm.

Attend the men's meeting 3 o'clock Sunday afternoon at the tent.

## RELIEF CORPS DISCUSSES COMING DISTRICT CONVENTION

The Woman's Relief Corps held its regular bi-weekly meeting Friday afternoon in the G. A. R. hall. The time was occupied in planning for the convention of the local organizations of the 20th district which convenes in this city in October.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Tablets invigorate the stomach and liver and enable them to perform their functions naturally. For sale by all dealers. (Adv.)

## HYOMEI RELIEVES IN FIVE MINUTES

Help Comes Quickly When Hyomei Is Used for Catarrh, Bronchitis or Cold in the Head.

Quick and effective relief comes from the Hyomei treatment for catarrh and all troubles of the breathing organs such as stopped up head, sniffles, bronchitis, coughs or that choked up feeling—or money refunded. You breathe it.

Hyomei is sold by druggists everywhere, gives a tonic healing effect to the air you breathe, destroys the catarrhal germs, stops the poisonous secretions, soothes the irritated mucous membrane and makes a marked improvement in the general health.

If you suffer from offensive breath, raising of mucus, husky voice, discharge from the nose, droppings in the throat, watery eyes, or any other symptoms of catarrh, use Hyomei at once. It will banish the disease germs in the nose, throat and lungs and give quick and permanent relief.

The complete outfit, including inhaler and bottle of liquid, costs \$1; extra bottles of liquid, if later needed, 50c.—Adv.

**COME SEE OUR NEW FALL GOODS**

Dame Fashion is waving her magic wand over our store and there appears daily among our displays the newest creations in dress goods and silks. We have never before enjoyed a more satisfactory business so early in the season than this autumn is bringing us. Each year additional scores of women learn that Harmon's is, indeed, "the Store for Dress Goods and Silks." If you intend purchasing a dress, costume, suit or coat this winter you should give yourself the advantage of choosing the materials from our carefully selected stock. Among the late arrivals in silks are Canton Crepes, Brocaded Poplins, Crepe de Chines, Plain Messalines, Brocaded Crepe de Chines, Jacquard Crepes, Crepe Meteors, Brocaded Velvets, etc., and a particularly strong line of Black Silks. The new Woolens include Imported Brocades, Silk and Wool Poplins, Astrachans, Eponges, Brocaded Prunellas, Brocaded Serges, Etc. You should not purchase anything in dress goods without first seeing our assortment.

**SUNDAY SCHOOL WORKERS  
PLAN SERIES OF INSTITUTES**

Meeting Arranged and Departmental Heads Named at Meeting of Executive Committee.

At a meeting Friday afternoon at 2:30 of the executive committee of the Morgan County Sunday school association a program was scheduled and announcements were made of a series of Sunday school institutes to be held from October 29 to 31 in various parts of the county.

New county vice-presidents were elected and a reorganization was effected of the Sunday school work departmental heads. Arthur Swain acted as president and Miss Flora Hall as secretary of the meeting.

The new departmental heads are as follows: Elementary, Mrs. Gertrude Richardson in place of Miss Josephine Morey, resigned; adult, Dr. C. E. Harris in place of J. R. Watt, resigned; teacher training, Rev. Mr. Coleman of Woodson to replace the Rev. Clyde Darsie; superintendent of advanced division, Rev. Mr. Darsie in place of Nellie Crain.

The vice-presidents will be Miss Farris of Concord, in charge of the northwest part of the county; J. K. Cunningham of Murrayville, the southwest; John Erixon of Alexander having charge of the work in northeastern Morgan. Beginning at Ebenezer on the 29th of October high institute series will include programs at Woodson, Murrayville, Franklin and Pisgah, on consecutive days. On the 26th the institute will be held at Waverly on the 27th, at Litterberry, the 28th at Prentice, the 29th at Concord, the 30th at Chapin and the 31st at Meredosia. The programs will include addresses by local workers and will be in charge of Miss Lillie Paris of Cincinnati and Miss Cynthia Pearl Haas of St. Louis.

Hear about the mayor in "Twentieth Century Sodomy."

**REV CAREY FITZGERALD DIES  
SUDDENLY OF HEART DISEASE**

Well Known Baptist Minister of Greene County Passes Away at His Late Home in White Hall—Had Been in the Ministry 25 Years.

Rev. Carey Fitzgerald, a well known Baptist minister of Greene county, died very suddenly of heart failure Friday morning at 1:45 o'clock at the family residence in White Hall. The day previous he had been working about the home, apparently in his usual health, and after the attack came on him, he did not live long enough for a physician to arrive.

He was born in Kemper, Ill., January, 28, 1855, and he had practically spent his entire life in Greene county. At the time of his death he was preaching at West Union and Pleasant Dale. He had filled pastorates at Manchester, Hart's Prairie, East Union, Barrett and other places in Greene county. His ministry had extended over a period of twenty-five years.

Rev. Mr. Fitzgerald was twice married, his second wife being Mrs. Rachel Ellis of Manchester, mother of Mrs. Ernest Roach of Jacksonville. By his first marriage five children survive, John and Ebel near Greenfield, Ralph and Leland at home and Mrs. Edward Bell of White Hall. He also leaves his second wife and one sister, Mrs. Henry Crawford of Oklahoma.

The funeral services will be conducted Monday morning at 10 o'clock from the White Hall Baptist church, in charge of Elder Henry Dixon, assisted by other ministers. Interment will be made in the Short cemetery.

Don't take cold for lack of warm apparel; call on Knoles soon.

**FUNERAL NOTICE.**  
The funeral of the late William H. Rowe will be held from the family residence northwest of the city at 2:30 Monday afternoon. Interment will be made in Diamond Grove cemetery.

**GOOD SCORES AT SECOND  
DAY OF SHOOTING TOURNEY**

Nichols Park Gun Club Events Attracted Many Sportsmen.

The second day of the fall meet of the Nichols Park Gun club was well attended and the shooting done was excellent. An enthusiastic number of sportsmen were there and all went well. The chief events of the day were divided into morning and afternoon programs and some fine scores were made.

In the morning the scores made by amateurs were out of a possible 100:

Max Kneuss, Ottawa . . . . . 93

James Groves, Jacksonville . . . . . 92

Roy Nutt, Jerseyville . . . . . 88

In the afternoon the score stood:

J. A. Groves, Jacksonville . . . . . 93

Max Kneuss, Ottawa . . . . . 92

Truman Snell, Macoupin county . . . . . 92

G. T. Hall, Loomi . . . . . 89

The professionals had a shoot with best out of 200 shots and the score stood as follows:

A. H. Hammann, Peotone . . . . . 190

E. S. Graham, Ingleside . . . . . 183

H. W. Cadwallader, Decatur . . . . . 180

There was also some other shooting by various parties between times and taken altogether the affair was a fine success.

**LYNNVILLE.**

Mrs. Florence Campbell of Oklahoma visited recently with her aunt, Mrs. Hulda Moore.

Mrs. Ellen Boddy of Jacksonville spent the past two weeks with the family of John Sayre and with friends in the village.

Mr. and Mrs. Henry Dyker of Peoria spent last week with Mrs. Dyker's parents, Mr. and Mrs. William Parker.

Miss Sarah Jewsbury of Jacksonville has been a guest at the home of John Sayre.

W. R. Coultas, who is doing some tiling near Orleans, spent Sunday with his family here.

The services at the M. E. church will be Sunday afternoon for the next six months.

Mallory Bros. buy overcoats.

**DEDICATE MONUMENT.**

Trenton, N. J., Sept. 25.—A monument marking the spot where George Washington crossed the Delaware river in 1776, was dedicated today by delegates to the National Camp Patriotic Sons of America, which began its biennial session here today.

**A Safe, Sure Way to Get  
Rid of Kidney Trouble**

Use Foley Kidney Pills, an Honest Proprietary  
Medicine that Succeeds in Doing This,

You can tell by your symptoms whether your kidneys are to blame for your weak run down and tired condition. When your kidneys no longer keep your blood pure and clean, you feel the effects of this impure blood in all parts of your body. In your head with dull headaches and disturbed eyesight. In your nervous system; in your brain with dizzy spells and blood pressure; in your heart action, with weakness and fluttering; in your stomach, with disturbed digestion and consequent constipation; in your back, with weakness, lameness and pains over your hips and sore feeling at your kidneys; in your bladder, with burning sensation and bothersome irregularities; in stiff swollen joints and ankles, and puffy eyes, also rheumatism and lumbago.

Foley Kidney Pills succeed in positively and permanently removing these symptoms, because Foley Kidney Pills are a good honest proprietary medicine that succeeds, because it is HONESTLY MADE of pure drugs that are needed by the system to build up, strengthen and restore the kidneys, which once healed, will do their work automatically perfectly, removing all cause of kidney and bladder ailments, rheumatism and unhealthy conditions and restore perfect health. They are a blessing in many homes where they have given health comfort and happiness. They cost but little, and they do much good. Take them with confidence and they will repay your trust. They contain no harmful drugs. Try them.

City Drug Store—J. A. Obermeyer

**Knox County Farm For Sale**

Knox county is in the center of the great corn and blue grass region of northeast Missouri. Edina is the county seat, a little city of two thousand people and located just forty miles west of Quincy, Illinois, on the Q. O. & K. C. R. R. Edina is a thriving little city, all branches of business represented, has four banks, eight churches, one of which, a Catholic church, the largest in Missouri outside of the larger cities; a good public school that articulates with the University of Missouri; two parochial schools under a thorough management.

Our little city is on a high elevation overlooking the deep rolling prairies surrounding us.

I am not a land agent, I own this farm and desire to sell it and hence have placed a price where it is bound to sell.

This farm is seven miles north of Edina, four miles from Baring, a town of 500 people on the line of the great Santa Fe R. R., and is one and a half miles from the town of Pabst on same road, all of which furnish good trading points and splendid shipping facilities. One-half mile from school on a good public road; phone connections all over the county, free mail delivery at the door. A nice five-room cottage, mostly new, with cellar 14x8 ft., barn 36x40 ft., large enough for the farm, with loft room sufficient for 25 tons of hay; also corn crib of 1200 bushels capacity, with shed room on two sides; all kinds of fruit of the best variety. This farm is well watered. 280 acres in this farm, all under fence and in a high state of cultivation except 80 acres, which is in timber and blue grass pasture; and is gently rolling, just enough to carry off the surface water. It is well fenced with woven wire into four separate fields. 40 acres is now in meadow; 15 acres pure clover; the remaining 145 acres under the plow this year. I have endeavored to sell my own farm and have adopted this method of doing it. My price is \$75 per acre, on easy terms, if taken in thirty days.

Address JOSEPH COURTNEY, Edina, Mo.

## THOMPSON DISSENTS FROM KANSAS JURISTS' OPINION

Sends Young Married Man To Prison  
For Persuading 18 Year Old Girl  
To Elope With Him to Buffalo.

Philadelphia, Sept. 26.—Dissenting from the opinion of the Kansas judge who recently held that it was necessary under the Mann "white slave" act to establish that "the transportation was for commercial purposes," Judge Thompson in the United States district court here today sent W. D. Mayhew Gillies, a young married man of this city, to serve a year and eight months in the penitentiary for persuading 18 year old Florence Summerhuh to elope with him to Buffalo last February. Gillies is also under indictment charged with taking Jesse Odyke, 19 years old, from this city to Buffalo.

Counsel for Gillies in arguing for a suspension of sentence quoted the recent Kansas decision that the Mann act was not intended to punish a man for an indiscretion.

"The crime for which this man was found guilty is undoubtedly covered by the statute," declared Judge Thompson, who then pronounced sentence.

## VOICES APPEAL TO DUNNE TO SETTLE LABOR TROUBLE

Frank Comerford Charges Governor  
and State as Being Partners in  
Long Lockout of Illinois Central  
Employees.

Milwaukee, Wis., Sept. 26.—An appeal to Governor Dunne of Illinois and the federal government to step in and settle the two years labor trouble on the Illinois Central road was voiced here today by Frank Comerford of Chicago, at the closing session of the annual convention of the Brotherhood of Railway Carmen of America.

Mr. Comerford charged the governor and the state of Illinois as being partners in the long lockout of the employees of the Illinois Central road because, he said, the state participated in the earnings of the company and because the governor is a director in the road.

The state gives dollars the right to organize, he said, a corporation is a union of dollars and the Illinois Central is a corporation. By locking out the employees because they refused to give up their organization the state and the governor denied human being the right of organizing a permission which it granted to dollars.

Socialism was then scored by the speaker. He said that unions could be killed by taking socialism into them.

Men only can hear "Twentieth Century Sodom" Sunday.

**RAILROAD REVENUE INCREASES**  
Chicago, Sept. 26.—American railroads gross operating revenue in the fiscal year ending June 30, 1913, established a new high mark of \$2,171,445,000, surpassing all previous records, according to figures compiled by the bureau of railway news and statistics of Chicago, made public today. This is approximately \$298,000,000 or nearly 10 per cent increase over the previous physical year. The total operating expense also showed an increase the figures being \$2,200,991,281 for the last year as compared with \$1,990,661,981 for the previous year.

**GAUS AWARDED DAMAGES.**  
St. Louis, Mo., Sept. 26.—A circuit court jury here today awarded \$60,000 damages to Harry Gaus, a manufacturer who sued H. C. Henley, chief of the St. Louis fire prevention bureau, and thirty-five insurance companies for more than half a million dollars for alleged false arrest incident to the burning of the box factory of Harry Gaus & Sons in 1909.

## FIND NO EVIDENCE OF VIOLENCE.

New York, Sept. 26.—After an investigation of the case of Congressman Timothy D. Sullivan, whose body, after his recent tragic death narrowly escaped burial in the potter's field, Deputy Police Commissioner Dougherty announced today that he had found no evidence of violence or suicide.

**FERN'S BESTS WALTERS.**  
Kenosha, Wis., Sept. 26.—Wildcat Ferns of Kansas City had a big shade over "Billy" Walters of Chicago in their ten-round bout tonight. Ferns was carrying the fight to the naval champion most of the time and Walters took an awful beating. In the early rounds the battling was even, but Ferns had a big advantage in the closing rounds.

**DUNNE ISSUES REQUISITION.**  
Springfield, Ill., Sept. 26.—Governor Dunne today issued a requisition upon the governor of Indiana for the return to this state of Jason A. Williams, now in Indianapolis and wanted in Chicago on a charge of operating a confidence game.

Williams, it is alleged sold Timothy Ross, Chicago, a worthless gas plant in Rushville, Ind.

**IDENTITIES PHOTOGRAPH.**  
Louisville, Ky., Sept. 26.—A photograph of Joseph Ellis of Richmond, Va., sent here by his father, was today positively identified by Maurice Raff as the likeness of the young man who last week robbed him of a gold watch and a sum of money in a room at a local hotel.

**EXPRESS KILLS FIVE.**  
Montreal, Que., Sept. 26.—The Canadian Pacific Quebec Express ran down a carriage containing five persons near this city today, killing them instantly. The dead all lived in St. Elizear. The bodies were thrown in all directions, one of them being found on top of one of the cars.

Julius Steger has a new playlet called "The Warning."

## TRI-STATE MEDICAL SOCIETY CLOSES ANNUAL SESSION.

Dr. C. C. Cochran Was Among Those  
Who Spoke at the Convention—  
Next Year's Meeting Will be in  
Des Moines.

The twenty-first annual meeting of the Tri-State Medical society has closed its sessions at Hannibal, Mo., after choosing Des Moines, Ia., as the meeting place for next year. Among the list of speakers at the convention were Dr. C. C. Cochran of this city. He talked on the "National Treatment of Tuberculosis." Dr. Cochran presented a comprehensive account of the ravage of tuberculosis and treated its various phases in an intelligent manner. He advanced the idea that if doctors and people generally would give more time to working along preventative lines and not so much time in studying out prescriptions of how to cure the disease and of the physiological effects of the drugs, that more would be accomplished in the right direction. The doctor outlined a course of living and of sanitary conditions that would insure a permanent prevention of the dreadful disease.

The following were the annual election of officers:

President—Dr. Flavel Tiffany, Kansas City.  
Vice-president for Illinois—Dr. E. P. Sloan, Bloomington.  
Vice-president for Missouri—Dr. E. A. Shea, St. Louis.  
Vice-president for Iowa—Dr. E. H. Noble, Clarendon.  
Secretary—Dr. E. H. Bounds, Hannibal.  
Treasurer—Dr. Emory Lamphear, St. Louis.

## POULTRY CULTURE. Article XVI.

**Nearness to Market.**—The desirability of being located quite close to market is frequently emphasized because it saves times and expense in delivering the products, makes possible the prompt filling of orders and the arrival of the eggs and dressed fowls in fresh undamaged condition. There are a few changes and a little handling of the goods enroute.

It is wonderful, however, what a difference has been brought about by the telephone, frequent mails and fast expresses. Distance in actual miles has been, as it were, annihilated so that the paying of an extra high price for land because of its nearness to market is not always worth while.

**Possible Customers.**—Any large city or thriving town furnishes a good market for eggs and dressed fowls, while the demand for breeding, fancy laying stock and for eggs for hatching, comes from all over the country. Determine, if possible, whether the poultry products of the given locality are sufficient to supply the local demand. Consider whether an additional supply could advantageously be sent to the city markets, commission houses, hotels and restaurants or private families of some city, or to the stores, markets or boarding houses of a neighboring town. The largest cities pay the highest prices for strictly first class products. Ascertain if it be practicable to establish a retail store in the city suburbs or in the neighboring town or village. Sometimes collectors gather up the eggs and poultry regularly once or twice a week. Sometimes collectors gather up the eggs and fowls in localities where poultry products are plentiful. A special demand, for a longer or shorter season, is created in sections where summer cottages and health and pleasure resorts are located.

**Means of Transportation.**—While studying the possible markets available from a given location, consideration must also be given to the matter of conveyance of the products to customers.

Transportation by waterways is usually the cheapest whether by lake, sea, river or canal. The boat carries eggs with very little jolting. The railroads furnish the most common means of transportation whether express or freight. Some trolley lines are carrying freight, and it is hoped that this method of transportation of products to market will increase. Wagon expresses are occasionally available. The postoffice department now includes a parcel post division so that eggs and dressed fowls can be sent cheaply and safely to customers by mail as is the custom at present in England and many other countries. If a retail route is to be established a private delivery wagon becomes necessary and in that case the poultryman should pay some attention to the condition of the roads of the locality.

Where delivery of fresh eggs and dressed fowls is made regularly once or twice per week by private wagon, the location of the poultry yard should be near enough to the customers to avoid excessive and expensive loss of time in driving to and fro and of too much wear and tear of horse and wagon on the road. If the chief object is to be the selling of fancy fowls and eggs the most important items to consider are the railroad, express accommodations and the frequency of the delivery of the mails. These factors together with effective advertising tend to equalize distances and locations for the sale of poultry products. Keeping—H. A. McKeene, Secretary, Illinois Farmers' Institute.

**SILKMAN JOINS SQUAD.**  
Urbana, Ill., Sept. 26.—Silkman, last year's quarterback of the University of Illinois joined the squad today. He had decided to give up football for baseball but was induced to change. Decker showed well today in the backfield. A game will be played tomorrow with the freshman or the reserves.

Tully Marshall is to start in a play called "The Incumbence."

Mrs. C. C. Andrews of South Diamond street has returned from Virginia where she has been for some time with her mother, Mrs. Scott Hearst, who has been sick.

## Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars, or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk. The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**.

This famous Doctor's prescription has been recommended for over 40 years, and is today just as big a success. Restores a healthy appetite. Cleanses the blood. Strengthens the nerves. Regulates stomach and liver. Demand the original.

In your hand you hold a five-cent piece.

Right at the grocer's hand is a moisture-proof package of U need a Biscuit. He hands you the package—you hand him the coin. A trifling transaction?

No! A remarkable one—for you have spent the smallest sum that will buy a package of good food; and the grocer has sold you the most nutritious food made from flour—as clean and crisp and delicious as it was when it came from the oven.

**NATIONAL BISCUIT COMPANY**

**Men Welcome Mother's Friend**

A Duty that Every Man Ows to Those who Perpetuate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering, pain and distress incident to childbearing can be easily avoided by having at hand a bottle of Mother's Friend.

This is a wonderful, penetrating, external application that relieves all tension upon the muscles and enables them to expand without the painful strain upon the ligaments. Thus there is avoided all those nervous spells; the tendency to nausea or morning sickness is counteracted, and a bright, sunny, happy disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to open its eyes in bewilderment at the joy of his arrival. You can obtain a bottle of "Mother's Friend" at any drug store at \$1.00, and it will be the best dollar's worth you ever obtained. It preserves the mother's health, enables her to make a quick and complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child. Write to the Bradford-Regulator Co., 129 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers. Get a bottle of Mother's Friend today.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

**A Hard Winter is Predicted.**

## KING FOOTBALL WILL MAKE HIS DEBUT TODAY

TEAMS WILL SWING INTO ACTION ON MANY A GRIDIRON

Although Many Smaller College Elevens Played Easy Games Last Week the Big Teams Reserved Their Initial Appearance For Today.

New York, Sept. 26.—Football teams representing the leading universities of the country will swing into action tomorrow and before dusk King Football will have made his 1913 debut on many a gridiron. Although several of the smaller college elevens appeared in easy games last week the majority of the big teams reserved their initial appearance for the last Saturday in September. In the east, Pennsylvania, Princeton and Harvard all step from the practice to the actual playing stage, while in the middle west, Minnesota will lead the way for the other conference college teams.

In no case is a varsity eleven called upon to face a really dangerous opponent yet tomorrow's results will be watched closely as giving an indication of the teams' possibilities. The results of the slight changes in the playing rules also will be watched so that coaches will be familiar with new developments possible under the 1913 code.

The naval academy team will not open its season for another week and the game holds true of the army team at West Point.

**Ames Has One Veteran.**  
Grinnell, Ia., Sept. 26.—Seventeen of the twenty-two men who start the Grinnell-Ames game here tomorrow are recruits from last year's ineligible squads, according to tentative line-ups given out tonight. Ames will have one veteran in Captain Cowan while Grinnell will have four men who played a part of last season.

**Two Conference Teams To Play.**  
Chicago, Sept. 26.—The football season will be opened in the central states tomorrow with a number of important games, among them two in which conference teams will play. Minnesota takes on South Dakota, whose team this year is said to be fully as strong as the fast eleven that downed the Gophers last year. Indiana opens the season with DePaul and is expected to find a hard battle on its hands.

Other games scheduled are:

Georgetown vs. Cincinnati at Cincinnati.

Case vs. Buchtel at Akron.

Ames vs. Grinnell at Grinnell.

Ottumwa vs. Ohio Wesleyan at Delaware.

Heidelberg vs. Oberlin at Oberlin.

Ohio Northern vs. Pittsburgh at Pittsburgh.

**Friends Expected Her to Die.**

"I sincerely believe my life was saved in the Fall of 1910 by using Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Agnes Booth, Tonawanda, N. Y. "I was taken with diarrhoea followed by an attack of acute indigestion. Power of the pen fails to portray the agonies I endured. My friends expected me to die as I had been unable to get relief for so long a time. This remedy went directly to the seat of the trouble and cured me in a few hours' time." For sale by all dealers. (Adv.)

**BIDS FOR PUMP.**

Sealed bids will be received by the city of Jacksonville until noon, October 4, for a single acting outside packed verticle triplex plunger pump, with a 50 h. p. 2300 v. 60 cycle three phase; slip ring type A. C. motor with controller and starting resistor; capable of pumping one million gallons every 24 hours.

Bids must be on basis F. O. B. Jacksonville. The city council reserves the right to reject any or all bids. Specifications on file in this office.

C. R. Knollenberg,

Commissioner of Accounts and Finances.

**A. H. T. A. ELECTION.**

Sub order 158 of the Anti-Horse Thief association will hold its yearly meeting today at 1:30 in the court house. The officers will make their annual reports and new officers will be elected. Plans for the state convention will be discussed which is to be held in Springfield at the state house October 15 and delegates for it will be selected.

**IF CHILD IS CROSS,**

**FEVERISH AND SICK**

Look Mother! If Tongue Is Coated, Cleanse Little Bowels With "California Syrup of Figs."

Children love this "fruit laxative" and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then their little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs." and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs." because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs." which has full directions for babies, children of all ages, and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

## MRS. A. HARRIS FILES SUITS AGAINST HUSBAND

SEEKS DIVORCE AND AN ACCOUNTING OF PARTNERSHIP TRANSACTIONS.

Trespass Action for \$50,000 Also a Part of Legal Proceedings—Mr. and Mrs. Harris Were Married in 1872 and Have Large Property Holdings—Action For Accounting Includes Andrew O. Harris.

Mrs. Amarinda F. Harris yesterday filed a bill for divorce against her husband, Andrew J. Harris, charging him with cruelty. Mrs. Harris also filed a trespass on promises suit for \$50,000 against her husband and as a third action a bill directed against her husband and her son, Andrew O. Harris, asking for an accounting. In all three suits Mrs. Harris is represented by Bellatti, Barnes & Bellatti. The prominence of the parties to the actions will add greatly to their interest when the trials are held in November. Mrs. Harris prior to her marriage to Mr. Harris was Mrs. Wesley Robertson. She alleges in the bill for accounting that she furnished most of the capital for a partnership into which they entered in 1878, each to have one-half of the profits and that about 1902 their son, Andrew, was admitted to the partnership, each to have one-third. Mrs. Harris alleges that she has never been able to secure an accounting. They own large holdings in the northeast part of the county. In the action for trespass on promises no particulars are set forth other than the general claim that \$50,000 is due the complainant. The allegations and statements made in the bill for an accounting and the bill for divorce are as follows:

**Formed Partnership.**  
"Your oratrix, Amarinda F. Harris, of the county of Morgan and State of Illinois, respectfully represents that on or about October 30, 1878, your oratrix and Andrew J. Harris of the said county of Morgan and state of Illinois, entered into a general co-partnership together for the purpose of carrying on the business of raising, buying and selling cattle and other live-stock, and in raising, feeding or selling grain, hay, etc., buying and selling land and carrying on general farming business. That your oratrix brought into business almost the entire capital of the partnership, and that the said Andrew J. Harris was to assume the active management and conduct of the said business. That your oratrix was to receive as her share one-half of the profits and in the same proportion to share the losses of said business, and that the said Andrew J. Harris was to receive one-half of the profits and was to share the losses of said business in the same proportion. That the said co-partnership business was continued from the date above stated down to 1st day of April, A. D. 1902, when your oratrix and the said Andrew J. Harris, by mutual agreement, took into the co-partnership one, Andrew O. Harris, and that from that time on, it was agreed that each of said co-partners should receive one-third of the profits of said business and that each should be charged with one-third of the losses.

**No Settlement Made.**

"Your oratrix further represents that during the continuance of said co-partnership, a large volume of business was transacted and that no settlement of said co-partnership business has ever been made between your oratrix and the said Andrew J. Harris. That the said Andrew J. Harris has taken possession of the entire partnership property and have taken their own use of all of the profits of said co-partnership business, and that although your oratrix has repeatedly applied to said Andrew J. Harris and Andrew O. Harris to render to her an accounting of the profits of said business, and to come to a final settlement and adjustment with respect thereto, and that your oratrix well hoped that the said Andrew J. Harris and Andrew O. Harris would have complied with your oratrix reasonable request in that behalf, or in equity and justice they should have done, the said Andrew J. Harris and Andrew O. Harris decline and absolutely refuse so to do.

**Claims Large Balance Due.**

"Your oratrix further represents that upon a just and true statement of accounts of the said partnership business, it would appear that there is a large balance due from the said Andrew J. Harris and Andrew O. Harris to your oratrix in respect to the said business.

"For as much, therefore, as your oratrix is without remedy in the premises except in a court of equity, and to the end that the said Andrew J. Harris and Andrew O. Harris, who are made parties defendant to this bill, may be required to make full and direct answer of the same, but not under oath, the answer under oath being hereby waived, and fully set forth a true and just account of all their actions and doings in respect to the said co-partnership business, and that an account may be taken under the direction of this honorable court, of all and every of the said co-partnership dealings and transactions, and that the same may be fully adjusted and the respective rights of your oratrix and the defendants ascertained, and that the defendants may be decreed to pay to your oratrix whatever, if anything, shall appear upon such an account, and that your oratrix being ready and willing and hereby offers to pay to the defendants what, if anything, shall appear to be due to the defendants from your oratrix, and that your oratrix may have such other and further relief in the premises as equity may require and to the court shall seem meet."

## SLIP-ON RAIN COATS

we have for ladies and children also, and before making any purchase give us a call and look them over.

## LUKEMAN BROS.

Retailers of the Finest of Clothing Ready-to-wear  
West Side the Square

The main facts in the bill for divorce are thus set forth:

**Were Married in 1878.**

"Your oratrix, Amarinda F. Harris, of Morgan county, Illinois, respectfully represents unto the court that she is an actual resident of the county of Morgan aforesaid, and has been all her life a resident of the state of Illinois. That on October 30, 1878, she was lawfully married to one, Andrew J. Harris, the defendant hereinafter named, and has had by him one child, viz Andrew O. Harris, and that since her intermarriage with the said Andrew J. Harris, she has always behaved herself toward him as a chaste, dutiful and affectionate wife.

"Your oratrix further represents that the said Andrew J. Harris, wholly disregarding his marriage vows and obligations toward your oratrix, has for many years been guilty of extreme and repeated cruelty toward your oratrix that is to say, that the said Andrew J. Harris in September 1909 violently kicked your oratrix, and on July 6, 1912, said Andrew J. Harris struck her with his fist, greatly injuring your oratrix, and that on divers days and times between said dates, the said Andrew J. Harris struck, kicked and choked her, and otherwise ill-treated her, and on each of said occasions and on numerous other occasions, he used toward your oratrix the most violent, profane and opprobrious language, rendering her life miserable.

**Asks Proper Alimony.**

"Forasmuch, therefore, as your oratrix is without remedy in the premises, except in a court of equity, your oratrix prays that the said Andrew J. Harris, who is made party defendant to this bill, may be required to make full and direct answer to the same, and that your oratrix may be divorced and forever freed from the bonds of matrimony now existing between your oratrix and the said Andrew J. Harris; that the court will decree to your oratrix the household furniture and property of the said Andrew J. Harris and such sums of money to be paid by the said Andrew J. Harris to her as the court may deem necessary and proper for the maintenance of your oratrix, and that your oratrix may have such other and further relief in the premises as equity may require and to the court shall seem meet."

**REMOVAL NOTICE.**

Dr. H. C. Woltman has moved his office from West State street to 216 W. College avenue. Both phone 35.

### A WAY OUT

A Resident of Jacksonville Shows the Way.

There's one effective way to relieve kidney backache. Liniment and plasters may relieve it.

But they seldom reach the cause. Backache is caused by disordered kidneys.

Doan's Kidney Pills are for disordered kidneys. Jacksonville people back them up.

Read a case of it: J. B. Seaver, blacksmith, 346 E. North street, Jacksonville, Ill., says: "I have used Doan's Kidney Pills with fine results and I am pleased to recommend them. I had pains in the small of my back, especially when I tried to stoop, and they stopped the pains. They also regulated the action of my kidneys."

If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Seaver had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)

Theodore Sargent was a visitor Thursday at the home of Andrew Leck. He is from Hutchinson, Kan., and was on his way to Ann Arbor, Mich., where he will attend school.

## Compare All Bread

### Judge for Yourself

We are very proud of our new modernly equipped bakery, also of our competent employes but to say we are proud of our product would not express our feelings at all.

We think our IDEAL is one step nearer perfect bread than most of them have reached. To satisfy yourself buy a loaf and compare with others and we will leave it to your judgement. When better bread is made this bakery will make it.

## The Ideal Bakery

## LATEST NEWS FROM THE FIELD OF SPORTS

NEW YORK DRAWS STEP  
NEARER TO PENNANTDEFEAT BROOKLYN BY SCORE OF  
4 TO 2.Giants Score All Their Runs in First  
Three Innings—Brown, Montgomery  
Recruit, Holds New York Hit-  
less During Remainder of Game.

Brooklyn, Sept. 26.—The New York Giants drew a step nearer the flag clinching point by beating Brooklyn 4 to 2 this afternoon. They scored all their runs in the first three innings, during which Allen tarried on the mound and was hammered for eight hits. Then Elmer Brown, the \$7,000 Montgomery recruit, made his local debut and caused a sensation by holding the Giants hitless and runless for the remaining six innings. He gave four bases on balls but only one runner got to second.

PIRATES TAKE FINAL GAME  
OF SEASON AT FORBES FIELD

Defeat Cubs Easily by Score of 6 to 1—Adams Pitched Fine Ball for Pittsburgh.

Pittsburgh, Sept. 26.—Pittsburgh took the final game of the season at Forbes field from Chicago by the score of 6 to 1. Adams pitched fine ball for Pittsburgh and but for two passed balls by Simon in the eighth inning, Zimmerman would not have scored with Chicago's only run.

DOYLE HURT IN AUTO ACCIDENT,  
SNODGRASS GETS 'CHARLEY HORSE'

Both Giants Are Not Likely to Play Again for a Week and May Be Out of Championship Series.

Brooklyn, Sept. 26.—The supporters of the New York Giants in the world's series got a double shock today when they learned that Captain Larry Doyle had been injured in an automobile accident and Outfielder Fred Snodgrass had sprung a "charley horse" in the game at Ebbetts field. Both are not likely to play again for a week and may be out of the series with the Athletics for the world's championship.

Doyle received his injury last night as he was driving home in his automobile. Doyle became bewildered by the fog and steered the machine into a tree. He was thrown out on his right shoulder, either dislocating or breaking it. Pitcher Fromme, who was a passenger, escaped with only a slight shaking up.

BOSTON WINS BATTEST  
FROM PHILADELPHIA

NO ONE OF ATHLETICS' FOUR PITCHERS WAS EFFECTIVE.

Leonard Twirls Good Ball, Keeping Hits Well Scattered—Boardman Lasts But One Inning Against Champions.

Boston, Sept. 26.—No one of the four pitchers used by the Philadelphia American League team was effective against Boston this afternoon the locals winning 10 to 4. Leonard pitched good ball, keeping the visitor's hits fairly well scattered. Boardman, a recruit from the Waterbury Connecticut team lasted but one inning against the World's Champions.

BOSTON GETS EVEN BREAK  
ON DOUBLE HEADER WITH PHILLIES

Philadelphia Takes First Contest, 6 to 3 and Visitors Capture Second 10 to 9.

Philadelphia, Sept. 26.—Boston got an even break in a double header here today, Philadelphia winning the first game by 6 to 3 and the visitors the second by 10 to 9. Philadelphia made only five hits off Dickson who twirled the first six innings but all of the safeties aided in the scoring of runs, while Rixey was very effective, except in one inning.

## DISTRIBUTIVE TRADE HOLDS CENTER OF STAGE

SUSTAINED PROGRESS IS KEY-NOTE OF ADVICES.

Trade Tendencies in General Are Onward and Though There Are Enough Exceptions To Prevent Uniformity, Business Affairs Show Improvement.

New York, Sept. 26.—Bradstreet's will say tomorrow:

Distributive trade has held the center of the stage this week and in this line drygoods, clothing and wearing apparel generally have been most active, both at wholesale and retail.

Trade tendencies in general, however, are onward and though there are enough exceptions to prevent uniformity, business affairs show further improvement. This manifestation may very properly be correlated to the fact that stocks everywhere are light, that rains in the southwest have super-induced a better feeling there, that cold weather over a wide area in the fore part of the week furnished a reminder that heavy goods were needed, besides affording a stimulus to retail trade and that the crop movement has enlarged, with farm produce prices especially remunerative, this latter feature being reflected in somewhat improved collections.

Most reports indicate that trade is better than it was at this time last year. More-over money appears to be a little easier. Business failures for the week were 287, which compares with 259 last year.

New York, Sept. 26.—Dun's Review will say tomorrow: Sustained progress along conservative lines is the keynote of advices from the leading mercantile centers. Improvement is not wholly uniform and some sections and branches of trade reflect better conditions than others. In the aggregate however, the volume of current transaction continues large and though hesitancy is still shown in entering upon future commitments, the feeling of caution is less manifest than heretofore.

Unseasonably low temperatures in some parts of the country have led to further claims of crop damage but distributions of merchandise at retail has benefited and the wholesale movement is gradually expanding. Well maintained activity is apparent in all departments of the drygoods markets.

### BANK CLEARINGS.

New York, Sept. 26.—Bradstreet's bank clearings report for the week ending September 25th, shows an aggregate of \$3,093,049,000 as against \$3,227,873,000 last week and \$3,348,989,000 in the corresponding week last year.

### FAST MOTOR BOATS AT KANSAS CITY.

Kansas City, Mo., Sept. 26.—Some of the swiftest power boats in the country are among the entries for the regatta of the Kansas City Yacht Club, which opened here today on the Missouri River. The conditions for fine racing are exceptionally good and it is expected that during the two days of the regatta several records will be broken. Among the most promising competitors in the various racing events are Baby Reliance, the champion of America, with a record of 51.4 miles per hour; Hydro-Bullet, with a record of 47 miles per hour; Barnacle, of Chicago, with a record of 46 miles per hour; Tango, a new boat from Chicago, with enormous power; Oregon Kid, of Ranier, Ore., and several other noted speeders.

### EAT CABBAGE, FISH, SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach, if You'll Take "Pape's Diapiesin"—Try This.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour gassy stomach? Now, Mr. and Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large 50-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—Adv.

## ASSOCIATION ELECTS OFFICERS

HIGH SCHOOL STUDENTS HOLD SPIRITED ELECTION.

Literary and Athletic Departments of New Students Organization to be in Capable Hands—Australian Ballot Used in Voting.

When the young people of the Jacksonville High school go out into real life they certainly will know much more about politics and voting than did their fathers when they left school if we may judge by the events of the past few days.

When Prof. Collins took charge of the school he thought it best to make a few changes in some respects and one was the matter of societies. There were three but membership was somewhat exclusive and so many failed in securing the advantages which might otherwise accrue to the members of a student organization. That this might be overcome Prof. Collins called into counsel both teachers and pupils and laid before them the idea of organizing the whole school, or as many as chose to join, into one society to be known as the Jacksonville High School Literary and Athletic association. He consulted both pupils and teachers and secured the hearty co-operation of all and the result was the decision to invite all to become members including teachers, janitor and members of the board of education, membership not to be compulsory but open to all who saw fit to pay annual dues of 25c each.

A committee of nine was then formed and that body prepared the constitution which has already been published in the Journal. The object of the organization is to take charge of the literary work of the school, the paper, the Nautilus, and athletics.

In order that it may not be cumbersome the work of each department is relegated to committees with chairmen at the head of each and then there are advisory committees and all effort made to have the management as democratic as possible no one being slighted.

Over Three Hundred Pay Dues. It was duly announced that an election for officers would be held the morning of the 26th and all who had paid their dues would be permitted to vote and no others. Dues were requested to be paid not later than the day before and would not be received after 8:45 Friday morning and at that time it was ascertained that 333 persons had paid dues, leaving out none of the teachers and only about forty of the pupils who didn't see fit to pay up and become members.

When all the preliminaries had been arranged then came the real game of politics. Nominations were to be made through the choice of each class presenting its choice of candidates and for a time it looked as if the upper classes would get the lion's share and then the freshmen and sophomores began to sit up and take notice and the battle was on. Reference to the constitution will show that the officers of the society were to be chosen from the student body while from the faculty were to be selected managers in certain departments. There was little absence from the polls which is so deplorable in real life for there were 330 students voting out of a possible 333.

The nominations were made and Friday morning came the time for the battle royal. It is the desire of Prof. Collins to permit as much freedom and good fellowship, lack of rigidity and rigid discipline as practicable at all times demanding strict compliance with orders for quiet. To that end he permits a few minutes after gathering in the morning and before closing at noon for social converse within suitable bounds and a busy hum is heard all over the room instantly subsiding when the bell is tapped.

Placards Hung on Walls. In order to encourage good fellowship and freedom to carry on their election without undue restraint all friends of candidates were permitted to hang placards about the assembly room and the one removing any of them was to be dealt with severely. The large gathering in the morning was called to order in the Lord's prayer and then America was sung with a hearty good will. The room presented an interesting spectacle. Placards, "George Coe, Nautilus manager," "Vote for Hercules Dick Reynolds," "G. Hoffman for musical director," "Vote for Reynolds; this is Dick." These and many more were scattered about the walls of the place and all were merry but responsive when the bell tapped for order.

Australian Ballot Used. It was decided to have the voting done as far as possible on the plan of the Australian ballot and to that end the successful nominees' names were all printed with a square opposite each and the tickets duly distributed. The names of all who had paid their dues were recorded and none others were permitted to vote. The election judges were composed of a teacher and a representative of each class and there were two election stations, one for all pupils whose names began with letters above M and another for the rest.

Election Judges. The election judges were: Faculty, Miss Elizabeth Russell and Miss Anna Day. Seniors, Harlan Williamson and Gladys Uzzell. Juniors, Warfield Brown and John Capps.

Sophomores, Charles Peak and Allen Smith. Freshmen, Byron Carpenter and John Claus. The balloting took about an hour and then two committees were named to do the counting. One box

was given into the hands of a teacher and a representative of each class. They were:

Miss Helen Cuffy, teacher; George Coe, Warfield Brown, Charles Peak and Earl Priest.

Miss Henrietta Lyman, Wilbur Rogers, Dale Boxell, Gladys Uzzell and Carl Strawn.

Results of Election.

The result was as follows:

President.

Harlan Williamson ..... 229

Worthington Adams ..... 111

First Vice President.

Frank Gruenewald ..... 187

Miriam Russell ..... 79

George Coe ..... 65

Second Vice President.

Dorothy Rogerson ..... 129

Dale Boxell ..... 200

Secretary.

Gladys Uzzell ..... 148

Lucille Sperry ..... 36

Meriam Russell ..... 180

Editor-in-Chief of Nautilus.

Ruth Badger ..... 304

Student Literary Managers.

(Vote for Two)

Byron Carpenter ..... 269

Helen Struck ..... 115

Helen Harney ..... 57

Esther Davis ..... 157

Nautilus Business Manager.

George Coe ..... 226

Worthington Adams ..... 112

Athletic Manager.

Everett Reynolds ..... 180

Richard Reynolds ..... 159

Student Musical Director.

Edith Hillyer ..... 108

Grace Hoffman ..... 232

Faculty Managers—Treasurer and Financial.

Paul E. Morrison ..... 328

Literary Manager.

(Vote for Two)

Helen Cuffy ..... 311

Irene Kuecher ..... 255

Nautilus Manager.

Elizabeth Russell ..... 321

Athletic Manager.

William L. Alcott ..... 319

Musical Director.

Alice Goodrick ..... 321

How to Cure Cholera Morbus.

Many cases of this disease result

fatally before medicine can be obtained or a physician summoned. It is easily cured when the proper remedy is at hand. Mrs. Charles Stewart of Mt. Collins, N. Y., says:

"When my husband had cholera morbus last summer he used Chamberlain's Colic, Cholera and Diarrhoea Remedy and it cured him promptly." Every family should

keep this remedy at hand. It only costs a quarter. For sale by all dealers. (Adv.)

FOR THOSE WHO LOVE MUSIC.

The Illinois College Conservatory of Music is offering a special course in Music Appreciation. This course is designed for individuals who lack the time for special study of either vocal or instrumental music. For further information apply to Director Kritch at the Conservatory.

## SPECIAL SERVICE AT BAPTIST CHURCH.

Unique Gathering Is Planned for Sunday Morning—Farewell to Rev. W. L. Dorgan.

The First Baptist Sunday school will hold a rather unusual service Sunday morning at 10 o'clock by combining the regular Sunday school hour and the morning church service.

The exercises will be a farewell gathering in honor of the pastor, Rev. W. L. Dorgan, who closes his work here at that time and who will be heard in a short valedictory sermon. The superintendent, Carl H. Weber, and the committees in charge have provided a very interesting program of short addresses, musical numbers and other special features, and very enjoyable and profitable time is assured.

The teachers and officers are making efforts to have the entire Sunday school and congregation present at the opening hour, 10 o'clock, when the Sunday school orchestra, under the direction of Miss Carrie B. Spires, director and W. C. Springate, chorister, will lead in a special song service.

W. B. Morris of the Illinois Sunday School association will be present and appear on the program with one of his strong character addresses.

The services will be held in the auditorium of the church, which will be appropriately decorated for the occasion and a hearty welcome is extended to all. The junior and primary departments will meet in the regular rooms at 9:30 and march to their reserved seats in a body.

Claude Hazelwood of Pearl is transacting business in the city yesterday.

## Cass County Farm For Sale

160 acres three miles from Beardstown; black sand land. Practically all of this land is in cultivation. The return is better than much \$200 land, investment considered. Price \$40 per acre. Might take good Jacksonville unincumbered property in exchange.

L. S. DOANE  
Farrell Bank Building

## SAFRO-GIBBONS FIGHT.

Eau Claire, Wis., Sept. 26.—Boxing fans from all parts of the state are here to witness the bout between Labe Safro and Mike Gibbons, which is scheduled to take place here tonight. The result of the fight is awaited with some interest, as it will in a large measure determine the position of Safro as a boxer.

Safro met with defeat when he fought against Shehan, the Chicago boxer, last spring, but he claimed that he was handicapped by an injured arm in that fight. Later he consulted a specialist who put his arm back in condition and now Safro is trying to prove that he has indeed "come back." Safro has never been a finished boxer, but there is considerable power in his jabs and punches. Gibbons is considered one of the cleverest and most scientific boxers in his class and his admirers believe that he will be fully able to evade his opponent's punches and jabs and tire him out by his tactics, while landing on Safro in vulnerable spots at opportune moments.

SPECIAL SALE IN ALL DEPARTMENTS TO DAY AT HERMAN'S.

## PRESERVE BABY'S SKIN

## CUTICURA SOAP

Assisted when necessary by Cuticura Ointment. They keep the skin and scalp clean and clear, sweet and healthy, besides soothing irritations which often prevent sleep and if neglected become chronic disfigurements.

Cuticura Soap and Ointment sold throughout the world. Liberal sample of each mailed free, with 24-p. book. Address "Cuticura," Dept. 28, Boston. Beware who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

## The Great Raymond, At The Grand All Next Week

The one unflinching charm about the performance of the Great Raymond is the sense of freshness, new like as it were, grafted upon the old tree planted by the magic of the olden days. Mr. Raymond does all the old tricks, but you forget their age in your wonder at the rapidity and skill of the execution. With half a dozen eggs, a pack of cards, a couple of handkerchiefs and a little tissue paper, he can work great modern miracles that most magicians have been able to do with all their paraphernalia and stage settings.

The Great Raymond carries over 70 tons of stage furnishings, all of which is used during his performances. It can therefore be readily understood why he is known around the globe as the King of Magicians.

The ease with which he produces flying pigeons from nowhere, finds lovely ladies in void places, releases scores of animals from an empty ark, turns water into wine and back again, and in a myriad other ways defies the laws of space and time, are wonderful beyond the powers of description.

Most of the various effects presented by Raymond are his own invention, while many have been extensively copied at home and abroad, the attention of the audience is called to the difference of presentation and execution. He is the greatest of all magicians and illusionists—past and present.

The Great Raymond will begin a week's engagement at the Grand next Monday. Prices, 50c, 35c and 25 cents.

## PRINTING

Carefully Quickly Cheaply

212½ West State Street.  
WALLACE GIBBS

## PRINTER

Receives the Plaudits of the Public.

Vigilant protector of people's eyesight, hailed a benefactor by many thousands of enthusiastic admirers. "Officer Printype" responds with becoming modesty.

## Printype OLIVER Typewriter

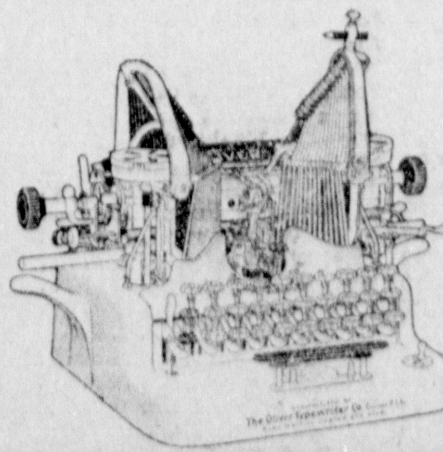

Printype is owned and controlled exclusively by The Oliver Typewriter Company.

America rings with praise and applause for Printype. This superb new typewriter type has attracted more attention than any typewriter innovation brought out in recent years.

Hundreds of thousands of people have seen this new type and wondered what it was that made Printype correspondence seem like a spoken message. There's virility, strength and charm in Printype correspondence. There's refinement and "class" and style. Not because of its novelty—it's inherent in the type.

### A Vast Improvement

Printype is designed in shaded letters and numerals, like the type in which books and magazines are printed. It is book type transformed and adapted to modern typewriter requirements.

This radical departure from the old style "outline" letters makes it possible to produce, on the Oliver Typewriter, a page of manuscript as clear and attractive as that of the finest book. The Oliver is the first and only typewriter that successfully prints print.

### The Primary Reason

Printype resulted from our discovery that "outline" type, with its sameness, due to absence of shading, was harmful to the eyes.

### The Silent Test

For months, without any advertising, we put hundreds of Printype Oliver Typewriters into actual service, in many diverse lines of business. We wanted the public's verdict. It came in a burst of admiration and a flood of orders that proved Printype a brilliant success.

Printype letters, wherever seen, excited the keenest interest. Business men who received the first Printype letter almost invariably answered, post haste—"Where did you get that type?" Thus Printype captured the country without firing a single shot.

### Price Not Advanced

The Printype Oliver Typewriter sells for \$100. You can pay at the rate of 17 cents a day. The "Printype" is our latest and best model. The new type adds 25 per cent to the value, but not one cent to the price. A small cash payment brings the machine. (24s)

of the  
Jacksonville Journal

## SEED BED FOR WHEAT IS IMPORTANT FACTOR

SHOULD BE FIRM TO BRING  
BEST RESULTS.

Lack of Rain Makes More Work  
Necessary—Grain Responds to  
Good Farm Methods—Corn Need-  
ed in Filling Silos—Corn Fields  
Good Subjects for Study.

(By E. T. Robbins, Agricultural Ad-  
viser.)

Wheat requires a firm seed bed. That does not mean that it should be cloddy or that it should not be plowed. In most cases it is much better to plow than to depend on disking. Much land in this county intended for wheat has not yet been touched, because people have thought that it was too dry to plow. Some of this land is too hard to turn with a mole board plow, but owners of such land should use implements that will make a sure thing of their plowing. It is early plowing that makes the largest crops.

The lack of rain has kept early plowed land from setting much this year and that means that more work will be necessary in placing the land in readiness for the seed. The roller and the harrow and the disk will be needed to work down the plowed ground to a sufficiently fine and firm condition. Wheat sown on firm seed bed sprouts quicker, grows faster, stands out thicker, stands the winter better, and consequently yields a better crop. Wheat sown on loose open cloddy land has a poor show.

Some people have asked me what to do with ground which was prepared early for alfalfa, but not sown because of the dry weather. I advise them to put this ground in wheat. They may count on a much larger yield in the wheat crop for the extra work put on that ground.

Reasons for Big Yields.  
There is a reason for every yield of crops. It is not luck, but the right kind of conditions of seed and soil and season that make the big crops.

What we must do is to learn the real reason for every big yield so as to guide us in securing unusually big yields. Many old fields this year side by side had great differences in the crops. Some of this is due to a week's difference in seeding, allowing one field to get a much better start before the dry weather. In some cases the land was worked too wet and the clods that baked afterwards, cut down the yield. Some big yields were due to the use of the roller when the dry weather started. In other big yields were helped out largely by treating for smut. The largest yield in the county that has come to my attention was 55 bushels per acre where phosphate rock was applied. In most cases drilling seemed to increase the crop 5 to 10 bushels per acre this year. Where a combination of good conditions are found it is not surprising that yields were sometimes twice as great as on similar land adjoining.

Wheat responds to good farming fully as well as oats. Early plowing, a fine firm seed bed, and which heavy seed, are among the principal factors in securing such much crops as the land is capable of producing. In this county the middle of September is a good time to sow. Very early sowing invites injury from the Hessian fly. Late sowing does not allow time for sufficient growth before winter.

The corn fields will bear close study for the rest of the season, to show how the different methods of cultivation have affected the yields. So far as I have seen, the corn which was cultivated in the spring and suffered from the drought. It has fared worse than corn given shallow cultivation. One of the best crops of corn for the character of the land, is that of D. S. Meeker of Delavan. He followed shallow cultivation and his corn held through the drought without flring. Accordingly, he brought some of the very best corn shown at the Delavan fair with long stalks and heavy ears. The best corn I have seen this year on hill land is a field on the farm of Wilbert Sommer. This is a new field, but shallow cultivation in the hope of producing a 100 bushel crop. It will scarcely make that much, but it will make a yield which will do credit to any farm in any season.

It will pay any farmer to talk to his neighbors about the methods they

employed. A good way to learn is by looking over the fence at the crops produced by methods which are better or worse than one's own.

Filling Silos.  
Some silos in Tazewell county have already been filled. Many more will be filled right away. Some years ago the trouble was that people filled too soon and as a consequence they had watery sour silage. Now since it has been found that water can be added to dry corn to make a fair grade of silage, there has been a tendency to cut corn too late. It is generally recognized by experienced silo owners that the best time is when the ears are dented and beginning to get hard, but while the stalks and leaves are still green and juicy. Usually this stage is reached when the husks are just beginning to turn brown and before the leaves have turned, except as a result of flring. This means that corn for the silo must be cut just before one would cut corn to shock in the field. By putting some corn in the silo and some in the shock, one can distribute the work of harvesting the corn crop and avoid the great rush of work when all of the corn is husked from the standing stalk.

## COMBINING ALFALFA WITH CORN SILAGE

Makes Economical and Valuable  
Feed for Dairy Herds—Mr Hulce  
Tells of Experiments.

(By R. C. Hulce, Dairy Department,  
University of Illinois.)

Question: I have been advocating the growing of alfalfa to combine with corn silage as the most economical feed for the ordinary dairyman. I am often asked what other feed and how much should be used with alfalfa hay and corn silage.

Answer: I note the feeding proposition which you state as bothering you. The feeding of farm animals, including dairy cows, is a proposition to which some farmers take naturally, while others apparently do not have the inherent knack which goes with the business. It is very hard to lay down a plan or system to be followed which will meet all cases, as each individual case has its own peculiar conditions.

It has been and is being proven that of our farm crops, corn for silage and alfalfa for hay, should receive prominence on the dairy farm. The yield of these crops per acre in terms of digestible nutrients, when they are successfully grown, is greater than from other farm crops. A combination of these two feeds forms an excellent basis for a dairy ration; in fact, we have cows here at the station which have been maintained for several years almost exclusively on a ration of alfalfa hay and corn silage with very satisfactory results. The alfalfa is relatively high in lime and protein content, while the silage furnishes carbohydrates and succulence. The proportion of the ration these two feeds should form will depend upon the ability of the individual cow to consume bulky feeds, which will vary as to breed and individuality. As a rule a larger proportion of the Holstein cow's ration, due to her large barrel capacity, can consist of roughages than in the case of Jersey cows.

Ordinarily the average cow receives about 35 pounds of corn silage daily and from 8 to 10 pounds of alfalfa hay. Various supplements can be used in connection with these feeds, such as grain mixtures consisting of two parts corn meal, one part oats, and one part bran. At present prices bran can be fed to good advantage in connection with corn.

I would call your special attention to pages 18 and 19 of Circular 152 of the Illinois Experiment Station. In these ration you will find corn silage and alfalfa or clover hay, together with a suggested grain mixture. Where one has a good grade of roughage, such as alfalfa or clover hay and corn silage, the grain mixture is usually fed at the rate of one pound of grain to each three or four pounds of milk produced daily. Where one has an inferior grade of roughage, such as corn stover and timothy hay, the grain will have to be fed in larger quantities in proportion to milk produced, and the mixture should contain a larger percentage of protein, such as oil meal.

## BUSINESS FOR SALE.

My whole time being taken up with other duties, I have decided to offer my cigar factory and business for sale. If interested, call at circuit clerk's office.

Eugene D. Pyatt.

## EXPLAINS DIGESTIVE PROCESS IN DETAIL

VARIOUS FACTORS HAVE INFLU-  
ENCE ON FOODS OF ANIMALS.

Nutrition Based on Proper Exercise  
of the Digestive Functions—  
Amount of Food Has Much Influ-  
ence in Results Is Belief at Experi-  
ment Station.

(By W. E. Joseph, Associate in Animal  
Husbandry, University of Illinois.)

Before the ingredients of a feed can be used in the animal body, they must be changed to a form that will pass readily through the walls of the digestive tract and that can be used by the organs and tissues in the performance of their work. Thus, starch, which is especially abundant in corn and the small grains, does not dissolve in water. In the animal body it is changed to a sugar, (glucose), which dissolves in water quite readily, passes quickly into the blood, and is directly available for the nourishment of the tissues. This change in the ingredients of the feed to forms which can

higher in digestibility when fed to cattle and sheep than when fed to swine.

There are influences which cause the digestibility of a feed to vary pigs. The crude fiber of all feeds is when fed to these animals. For example, when starch is added to a ration the digestibility of the protein and the crude fiber are decreased. The feeding of roots or potatoes in large quantities seems to produce the same effect on the digestibility of protein.

The Amount of the Ration.  
The influence of the amount of feed eaten on its digestibility has been studied rather extensively. There are, or at least have been, differences of opinion on this subject, but until recently the majority of writers on the subject contended that large amounts of feed were digested as thoroughly as small amounts. The Illinois agricultural station has conducted extensive digestion experiments with steers, results from which indicate that under some conditions the digestibility of some of the ingredients of a feed are markedly influenced by the amount of feed consumed. It was found that when the ration consisted of equal parts by weight of corn meal and clover hay, steers on full feed digested over seven per cent less of the carbohydrates than did maintenance steers. The ration of the maintenance steers was some-

## SECURING GOOD COWS IS DAIRY PROBLEM

MORE DIFFICULT EACH YEAR  
TO GET PRODUCERS.

Selling Calves to Butchers a Ruinous  
Practice—Most Successful Dairy-  
men are Those Who Raise Cows  
From Young Stock—This Plan  
Lessens Disease Danger.

(Preliminary Article on Illinois Con-  
ditions. By Prof. W. J. Fraser  
and R. E. Brand, University of  
Illinois.)

One of the greatest problems in successful dairying is to obtain good cows. The fact that every year it is becoming more difficult to buy really efficient producers makes it clear that the surest, most economical, and most satisfactory way to build up an efficient dairy herd, or to keep it supplied with good cows after it is once established, is to raise the heifer calves from the best cows bred to a good pure bred dairy sire. Furthermore, unless a dairyman raises the heifer calves with which to replenish his herd, it is almost impossible to keep the herd free from tu-

ties of the best animals in them. These dairymen depend upon buying cows with which to replenish their herds. In the vicinity of Elgin alone four cow dealers sold 7,000 cows in one year, and, besides this number, many cows were shipped in by the dairymen themselves. But there are few of the best animals for sale, and this means that the dealers cannot get enough really good producers to supply their purchasers. In order that a dairyman may be in the highest degree successful, therefore, he must raise the heifer calves from his best cows. Calf raising should be a part of his business; he has the breeding stock, the feed and the equipment, and knowing the parentage of the calves, he need save only those from high producing dams.

A Mistaken Idea.  
Yet, despite the fact that the evidence is so completely in favor of dairymen raising their heifer calves, hundreds of them defeat their own welfare by making no effort to rear even the best of their heifer calves. Such dairymen imagine that because it requires milk, the practice is too costly in a region where whole milk is sold. In one instance which may be cited from many similar instances, the heifer calves from a cow with an average production of 11,390 pounds of milk and 494 pounds of butter fat for three consecutive years, were sold to the butcher as soon as the milk was good. This practice, though as ruinous to the individual dairyman as to the dairy business as a whole, is only too common in the intensive dairy region of northern Illinois and has led the department of dairy husbandry to undertake an experiment to determine the minimum amount of whole and of skim milk required to raise a calf successfully.

## KERNELS FROM KORN BELT (By Sol E. Quizer.)

There's more than the hen to blame for most of the poultry failures.

It used to be pigs in the clover; now it's pigs in alfalfa.

Soaking in hot air has caused many cold feet.

You can phone at long distance, Or even get married. But farm at long distance And you will be harried!

## CONCORD.

Robert Willard has been employed as assistant teacher in the Concord board having a room fitted in the upper story for the extra recitations occasioned by the 8th, 9th and 10th grades.

Mr. and Mrs. Roy Crouse spent Friday night with his parents, Mr. and Mrs. James Crouse, in Jacksonville.

Perry Leonard spent Monday afternoon in Jacksonville. Mrs. Julia Beard of Brighton is visiting friends in Concord and vicinity.

Mrs. Ora Ham spent Monday afternoon in Jacksonville.

Thomas Murphy and family entertained Rev. Mr. Reed and family Saturday afternoon.

Mrs. Charles Moss will entertain the M. P. Aid Thursday afternoon at her pleasant suburban home.

Mrs. Richard Elvidge and family returned recently from a visit with her parents at Virginia.

Mr. and Mrs. James Rexroat wended their way to Jacksonville for a visit a few days last week.

Misses Emily Jane Allen of Elgin-ton and Lois Coultas of Winchester were in Concord Saturday, going to their alma mater, I. W. C., for an entertainment there. Miss Coultas was going to the state university as a student.

James Lemons of Beardstown was in Concord Monday afternoon.

John Rexroat has sold "His Place" to Ed Winn.

Mrs. Cleon McConnell and children of Rockhouse visited his parents, Mr. and Mrs. Archie McConnell.

Miss Bernice Hamilton of Newark, New Jersey, is visiting relatives and friends here, enroute home from a visit in Colorado.

Mr. and Mrs. Melvin Smith spent Sunday with Mr. and Mrs. Bayless and attended the official meeting of the Christian church Sunday afternoon.

Leander Filson was reported improving last week.

## THE WAY TO MANAGE BROWN SILT LOAM

DR. HOPKINS GIVES POINTERS  
ON CARE OF SOIL.

Late Pasture on Corn Fields Does  
Great Amount of Damage—Plow-  
ing Stalks Under Will Help—The  
Use of Limestone.

(By Dr. C. G. Hopkins, in LaSalle  
County Soil Report.)

This type occupies 922.16 square miles or 590,182 acres and constitutes 79.7 percent of the entire area of the county (LaSalle). This type, although typically a prairie soil, may include in its area a small amount of land that has been forested in comparatively recent time.

In the management of this type, one very important thing, aside from proper fertilization, tillage, and drainage, is to keep it in good physical condition, or good tilth. It is a common error in the corn belt to pasture the corn stalks during the winter and, too often, rather late in the spring after the ground has thawed out. This tramping puts the soil in bad condition for working. It becomes partially puddled and will be cloddy as a result. If tramped too late in the spring, the natural agencies of freezing and thawing and wetting and drying, with the aid of ordinary tillage, fail to produce good tilth before the crop is planted.

Whether the crop is corn or oats, it necessarily suffers, and if the season is dry, much damage may result. If the field is put in corn, a poor stand is likely to follow and if put in oats, a compact soil is formed, which is unfavorable for their growth. Sometimes farmers work their soil when too wet. This also produces a partial puddling which is unfavorable to physical, chemical and biological processes. The bad effect will be greater if cropping has reduced the amount of organic matter below the amount that is necessary to maintain good tilth.

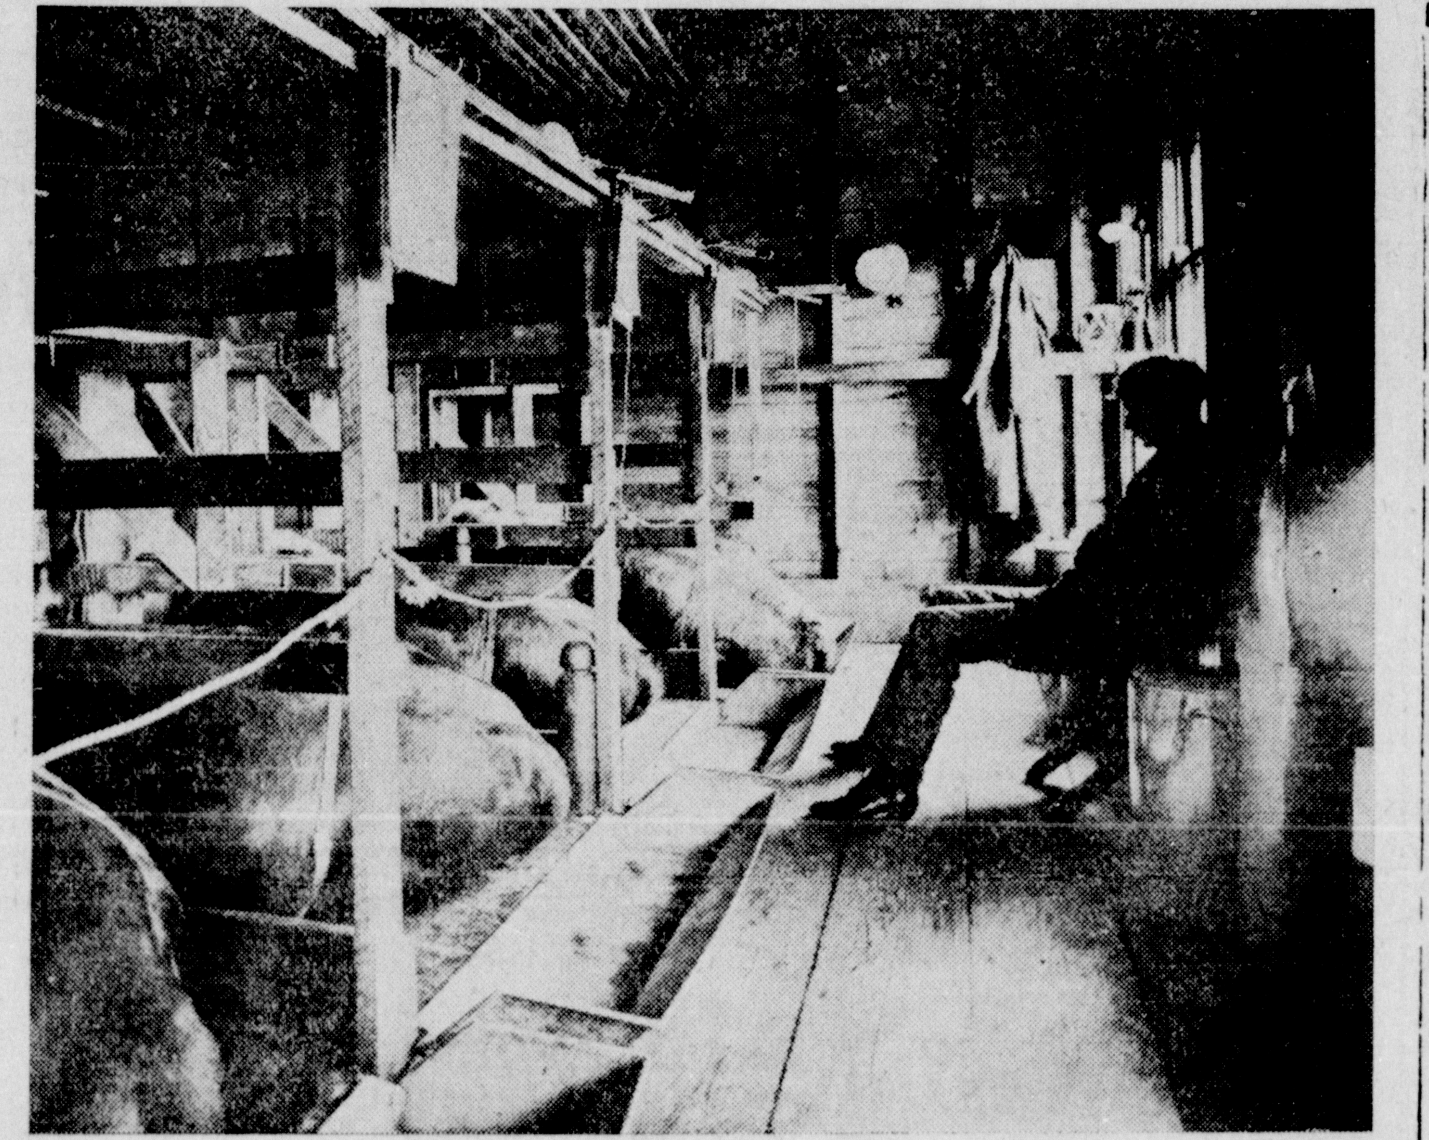

## Maintaining Organic Matter.

Every practicable means should be used to maintain the supply of organic matter. Clover should be grown every three or four years and the bulk of the crop turned under either directly or as a manure. All straw should be returned to the land and plowed under if not used for bedding or feed. One of the chief sources of loss of organic matter in the corn belt is the practice of burning the corn stalks. Could the farmers be made to realize how great a loss this entails, they would certainly discontinue the practice. Probably no form of organic matter acts more beneficially in producing good tilth than corn stalks, and to burn them is a very serious waste.

The stalks should be cut up with a disk or stalk cutter and turned under. It is true that they decay rather slowly, but it is true that the durability in the soil after partial decomposition is exactly what is needed in the maintenance of an adequate supply of humus. A ton of dry stalks incorporated with the soil will ultimately furnish as much humus as four tons of average farm manure, but, when burned, both the humus-making material and the nitrogen are forever destroyed and lost.

## The Use of Limestone.

The normal and the lighter phases of brown silt loam already require liberal additions of nitrogenous organic matter and phosphorus for the increase and maintenance of their crop producing power. As a rule, limestone can also be added with profit, and the importance of using limestone becomes greater year after year. The heavier phase of this soil type, usually found in narrow areas along old sloughs or draws, is still rich in humus and nitrogen, moderately rich in phosphorus, and well supplied with lime carbonate. Often the soil type in these narrow strips is black silk loam, but it is in too small areas to map separately from the brown silt loam. It should be kept in mind that phosphorus is a constituent of humus and is usually associated with limestone; and phosphorus is not likely to be greatly needed where the soil is still rich in humus and shows the presence of limestone by foaming when moistened with strong hydrochloric acid.

Steers in the Digestion Stalls.

be used by the tissues is brought about by the process of digestion in the mouth, stomach and intestines. Not all of the ingredients of most feeds can be used by the animal body. They are of such nature that they resist digestion. Hence a part of the protein, carbohydrates, and fats passes through the body virtually unchanged, and appears in the feces or dung. It should be stated, also, that a small part of the ingredients of a feed are of such nature that it can be used directly without undergoing any change in the process of digestion.

## Process of Digestion.

Since most of the material of feeds must first be digested before it is available for the use of the animal, it is readily seen that the process of digestion occupies a very important place among those bodily functions whose purpose is the nutrition of the animal. Hence, any influence which may tend to modify the digestibility of a feed will also affect its value to the animal consuming it.

Different feeds vary greatly in the completeness of their digestion; corn is more completely digested than timothy hay. Some ingredients of feeds are more digestible than others; starch is more digestible than crude fiber. The same feed may vary in digestibility under different conditions; roughages are more completely digested by cattle than by

what less than half that of the full feed steers. Steers getting five-sixths and five-eighths the ration of those on full feed digested a higher percent of the carbohydrates in the feed than did those on full feed, but less than those on the maintenance ration. Hence, the digestibility of the carbohydrates seems to be influenced by the amount of feed consumed when the ration consists of equal parts of corn and clover hay.

Furthermore, when the rations were made up of three parts of corn to one part of clover hay, and five parts of corn to one part of clover hay, there was still a difference in the digestibility of the carbohydrates due to differences in the amounts of feed eaten. Under these conditions the steers on the maintenance ration digested the carbohydrates more fully than any of the steers on heavier feed.

Protein and Digestion.  
When equal parts of corn meal and clover hay were fed, protein also was digested somewhat more than George May's steers on a maintenance ration than those on the heavier feed, but the difference was less than in the case of the carbohydrates. As the amount of corn was increased and that of clover hay decreased, the difference in digestibility of protein became less.

A factor which greatly influenced the digestibility of the protein by all

perculosis and contagious abortion. Too Many Calves Sold.

Many Illinois dairymen are not raising the heifer calves, even from their best stock, but are selling them, good, bad and indifferent, for veal, making no provision for perpetuating their herds or the milking quality.

of the steers was the addition of linseed oil meal to the ration. While the oil meal was being fed, all of the steers digested sixteen percent more of the protein eaten than they did before the addition of oil meal, when they were fed the same proportions of concentrates and roughage. The protein of the linseed oil meal seems to have increased somewhat the digestibility of the protein of the corn and clover hay.

The digestibility of the fat of the ration was not influenced appreciably either by the amount of feed consumed or by the addition of linseed meal to ration.

It seems therefore that the amount of feed influences the digestibility most as the proportion of hay in the ration is increased. The digestibility of the carbohydrates decreases as the amount of feed increases. There seems to be a similar change in the digestibility of the protein of the ration, but it is not as great as the change in digestibility of the carbohydrates.

\$1500. Finder please call Bell  
581-4. Reward.

## THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

### STOCK MOVEMENT IS STILL INCONCLUSIVE

#### SOME IMPROVEMENT COMPARED WITH PRECEDING SESSIONS.

Market is as far as ever from being shaped to a definite course—Fluctuations reflect maneuvers of Professional Traders.

(By Associated Press)

New York, Sept. 26.—Although there was some improvement in the action of the stock market today as compared with the sessions immediately preceding, the movement was still inconclusive.

The market was as far as ever from being shaped to a definite course and the unsteady fluctuations apparently reflected nothing more than the maneuvers of professional traders.

Early transactions showed a confused mixture of small gains and losses. The only conspicuous movement was in Union Pacific which rose steadily to the highest figure of the week. The rumor of a cash distribution on this stock was revived and made to do duty once again. The advance in this stock exercised little influence on the general market. Gradually, however, a firm tone developed, with a showing of strength in Erie, Reading and Canning. Gains in general were significant and the strong features were levelled down to a selling movement in the last hour.

Forecasts of tomorrow's bank statement indicated a gain in cash holdings of about \$8,000,000. The movement is influenced by the deposit in the south and west of the element funds, part of which is finding its way to New York. According to one estimate \$10,000,000 of the money deposited by the treasury department has been forwarded to New York.

### Public Sale

1500 ACRES SANGAMON COUNTY FARMS  
IN 1/4 AND 1/2-ACRE TRACTS  
TUESDAY, OCTOBER 21,  
AT PUBLIC AUCTION.

In order to close the estate of the late Charles Ridgely, we will, on the above date, offer on the premises, at 10 o'clock a. m., the following choice farms:

The Poley farm of 880 acres, 2½ miles southeast of Auburn (T. 13 N. R. 6 W., Sec. 25, 26 and 36), with three sets of good improvements.

The Rawson lands, 474.43 acres, at and near the village of Lower (T. 13 N., R. 7 W., Sec. 23 and 25), with three sets of improvements.

Every acre of this land is in cultivation and has for years

ILLINOIS STATE BOARD OF AGRICULTURE FOR 1913-1914.  
Illinois State Fair, Springfield, October 3-11, 1913.

**Officers.**  
President, J. T. Montgomery, Charleston.  
Vice-President at Large, George A. Anthony, Kewanee.  
Treasurer, J. F. Prather, Williamsville.  
Secretary, J. K. Dickinson, Springfield.

**Vice-Presidents.**  
Martin Conrad, Twenty-second and Rockwell, Chicago, superintendent Woman's building.  
B. H. Heide, Union stock yards, Chicago, superintendent cattle, beef breeds.

George H. Cooper, Mokena, superintendent poultry.  
Frank M. Mares, 2876 Archer avenue, Chicago, superintendent dairy products.

August W. Miller, 818 Chamber of Commerce, Chicago, superintendent textile fabrics and amateur art.  
John Dill Robertson, 32 North State street, Chicago, superintendent boys' state fair school, education and emergency hospital.

J. J. McComb, 1047 North Hoyne avenue, Chicago, superintendent horticulture.  
Louis F. Wink, 1109 North Robey street, Chicago, superintendent mechanic art.

J. F. Rehm, 172 Washington street, Chicago, superintendent Coliseum.

W. E. Davis, Libertyville, superintendent apiary, culinary and pantry stores.

C. F. Dike, North Crystal Lake, superintendent machinery.

George H. Madden, Mendota, superintendent cattle, dairy breeds.

J. E. Taggart, Freeport, superintendent floriculture and farm produce.

Frank Thornber, Carthage, superintendent sheep, jacks and jennets.

W. F. Aten, Ray, superintendent permits and privileges.

James K. Hopkins, Princeton, superintendent light horses.

Hiett B. Taylor, Fairbury, superintendent heavy horses.

B. M. Davidson, Marshall, superintendent of gates.

A. M. Burke, Champaign, superintendent speed.

L. O. Skiles, Virginia.

C. M. Woods, Ferguson building, Springfield, marshal of the ring.

John S. Culp, Bethalto, superintendent swine.

Thomas S. Marshall, Carbondale, superintendent grandstand.

John W. Shaw, Harrisburg.

Joab Goodall, Marion, general superintendent.

George A. Anthony, Kewanee, superintendent tickets and admission.

The above compose the state board of agriculture with their post office addresses and the department for which each is superintendent. Any information desired can be obtained by writing each in his respective department.

These gentlemen extend an invitation to the citizens of Illinois and all who may be interested in the greatest agricultural fair on earth to visit the state fair, the gates of which will be opened on October 3 for the reception of the citizenship and will continue open until October 11, inclusive. The fair for the fall of 1913 is promising to be one of the greatest that the state of Illinois has ever put on.

When you approach the fair grounds from the main entrance on the south over to the right, or when you approach the fair grounds from the southeast or street railway entrance, over to the left, you will see the Illinois game farm exhibit of beautiful birds, whose bright plumage sparkles like a thousand diamonds. Before going farther you will feel that you have been wholly repaid by what you have seen in this one exhibit.

As you pass on to the Dome building on the right and on the left in the open field you will see the great agricultural implement exhibit and Machinery hall to the east will be crowded to overflowing with the most exquisite and up-to-date farm machinery and agricultural implements of every kind.

Then in the Dome building you will see the floral exhibit with its beauty and fragrance, which makes one wonder "Where am I?" Then the agricultural exhibit in the same building, and upstairs in the northeast corner the old relic exhibit which will teach the young people of this day how the people in generations past had to make for themselves the necessities of life. In the southwest corner upstairs you will find the horticultural exhibit, one that makes you hunger for the taste of the fruit.

From the Dome building, taking the covered walk, you go to the Exposition building, where all the liberal arts, fine arts and textile department are found. Also other exhibits of superior taste are here.

From the west end of this building,

taking the covered walk you come into the Coliseum building, where the great exhibit of live stock will be made. Here you can sit and watch and wonder at what mankind has produced in the way of fancy horses, draft horses, carriage horses, ponies, beef cattle, dairy cattle, and all of the up-to-date animals of the age.

Directly west from the Coliseum are the cattle barns, where a great exhibit of the beef and dairy cattle of the state is made, and going south from these you will find the Poultry building, a hen house that cost \$18,600, and whose capacity is far short of accommodating the poultry exhibit which is made year after year. This within itself is sufficient to convey an idea to the mind as to what the poultry exhibit of the Illinois state fair means.

West from the Coliseum you will also find the horse barns. The last barn to the west is the new barn just completed in which much of the wonderful stock which you have perhaps seen in the Coliseum is housed. This one stable has cost the sum of \$75,900. It is beautiful in architecture, as well as elegantly arranged for the accommodation of the fine horses of this country.

Turning from here to the north, you come to the gigantic home for the swine. This is more completely arranged for taking care of the elegant herds of swine of Illinois than any other pavilion built for the same purpose in the United States. The combined cost for the erection of this and the Sheep pavilion was \$125,000.

From the north end through the covered walk you will go to the Sheep pavilion. This building is beautiful in its make-up, carrying with it a similarity in construction to the Swine pavilion, and is beautiful in the interior as well as on the exterior.

As you go eastward around the north side of the mile race-track you come to the speed horse barns, where are housed some of the greatest trotters and pacers, which will race for purses aggregating \$30,000.

Coming around the east end of the race-course, you again find the machinery field, this time on the north side of the Dome building and in the open court, where the humdrum of the labor-saving machinery is being developed by the interested parties who are educating the minds of the people of this country in the highest science of agriculture.

To the west you will find the Dairy building, where the exhibit of the butter producing cows is made and all the appliances necessary to the art of butter making, etc., are found.

Across the way from this you come to the Woman's building, where is taught the art of domestic science under the management of the ladies' board of domestic science managers, with probably the best teachers of this science in the land. From 300 to 400 young ladies are here studying domestic science and sanitary house-keeping, and their mode of teaching is demonstrating what they are doing. It is pleasing and fascinating for the young ladies to learn, and elegant for the young men to taste.

Going to the south and passing the Exposition building, you will come to Fairy street, where the attractions of Fairyland may be found. Down in Fairy hollow the young as well as the old that are fond of amusement and curious things will find entertainment.

Then farther down and over on the southwest hilltop of the grounds will be found the boys' state fair school, with the gaily of the boys of Illinois. Some of these boys will pour their whole souls out in studying the science of agriculture. This school is under the management and supervision of the superintendent of this department who is capable and competent to teach, and with the teachers of agriculture, the animal industry of the highest class will be in evidence, that these boys, with their mouths open, ears unstopped and eyes fixed upon the object under discussion may accomplish great good. This fall's fair will send a ray of light over the farms of Illinois when all of its teachers and pupils shall have passed on to their final rewards.

While this description is but meager compared to what you can and will see on your visit to the fair, when I tell you that the fair of 1911 from actual competent assessment aggregated the enormous sum of \$2,528,848, it will show something near the total valuation of the personal property on exhibit that year, and that is largely increased for the year 1912. Now are you surprised when told that this is the "Greatest Agricultural Fair on Earth"? No, of course not.

Come one, come all, and spend as much time here as possible and benefit tenfold over the labor and expense necessary to attend this great fair.—Adv.

#### EXHIBIT OF GAME BIRDS AT STATE FAIR.

The attraction committee of the state board of agriculture have arranged to have the state game exhibit at the state fair again this year.

New wires will be placed upon all the pens, which will help to make this attraction more beautiful than ever this year.

This exhibit has been on exhibition at the Illinois state fair for a number of years, and has proven itself a favorite.

As near as we can ascertain, the exhibit will consist of 4,000 golden, silver, amethyst and English pheasants, 2,000 call ducks, 50 Egyptian geese, one swan and 50 wild turkeys.

This will make the largest game exhibit that has ever been on exhibition at the Illinois state fair, and will no doubt be one of the best attractions on the ground.—Adv.

#### FUNERAL NOTICE.

The funeral of the late William H. Rowe will be held at the residence, two and one-half miles northwest of the city, Monday afternoon at 2:30 o'clock. Friends are requested to omit flowers.

#### PROGRESSIVES TO PICK CANDIDATES FOR JUDGES

Conference to Be Held in Rochester  
Today—Roosevelt to Attend.

Rochester, N. Y., Sept. 26.—County and district leaders of the Progressive party from all parts of the state are gathering here for the conference of the National Progressive party which is to be held here tomorrow for the purpose of discussing candidates for the court of appeals. Ex-President Roosevelt is expected to arrive here this evening and has promised to deliver an address at a luncheon to be given by the Rochester Chamber of Commerce tomorrow at noon. He will also speak at the Progressive conference in the afternoon.

Some time ago William H. Hotchkiss, Virgil M. Kellogg and Chauncey Hamlin were appointed to arrange a general conference of representatives of local bar associations and other civic organizations to discuss candidates for the court of appeals, but the State Bar association did not take kindly to the idea and it was abandoned. The conference to be held tomorrow will be of Progressives only. In addition to the state committee, numbering 150 members, the county chairmen will be present and each will be accompanied by ten delegates from each county. There will also be ten delegates from each assembly district. The headquarters of the state committee are the Hotel Seneca, and the committee will probably be held there unless the attendance should be so large as to make it necessary to use Convention Hall. Theodore Douglas Robinson, Jr., chairman of the state committee, will preside.

As to the probable choice which will be made at the conference tomorrow it is difficult to make any definite prediction. It is known that Colonel Roosevelt is in favor of Justice Martin J. Keogh and Justice

## MAY ERECT CENTRAL HEATING PLANT

EXPERT HERE TO MAKE ESTIMATE FOR TRACTION SYSTEM.

Supt. Miser Says the Money is Ready For Big Local Enterprise if He Finds Business Will Justify Expenditure—Steam Heat From Central Plant a Great Convenience.

A central heating plant is the latest project of the Illinois Traction system for Jacksonville and C. A. Gillham, a representative of the American District Steam company, is here to look over the situation and to consult with Gen. Supt. W. B. Miser. The Illinois Traction company operates such plants now in connection with its holdings at Bloomington, Decatur, Ottawa, Danville, Cairo, Champaign and Peoria. Utility companies in Springfield and Quincy also have heating plants which can be set down as a natural adjunct of the lighting and power business.

"The money is ready for a Jacksonville heating plant," said Supt. Miser yesterday. "If I make a favorable report on the proposition and it is entirely likely that application will be made to the city for authority to operate a plant here. It would be handled in conjunction with the electric lighting plant by increasing the steam capacity and then piping the steam to the localities desired. The plant and mains would probably cost \$100,000."

## Central Plant Great Convenience

The establishment and operation of a central heating plant would no doubt be welcomed by the Jacksonville public for it would mean a great convenience especially to business houses. Based on experience in other cities the cost for furnishing steam heat to stores or residences would not be much less to the individual than he has been accustomed to pay, unless there has been an expense for janitor service. However, a central plant usually means steam heat at a trifle less cost than by individual operation and an entire abolishment of coal dust and the other annoyances which always attend separate heating plants. If a plant is established here the company will bring the pipes and steam up to the outside of a store or residence and the owner will pay for the piping and radiators on the inside. The custom is to sell steam at the rate of \$1 per thousand pounds consumed.

## Would Lessen Fire Danger

To merchants the idea of the central plant will no doubt be especially appealing as they could thus do away with dust and dirt from coal in their store cellars and from ashes and cinders as well. Another point of advantage would be the decrease in fire risk. With a furnace in the basement of every business house there is a far greater chance for fires than would be true if these were all abolished in favor of the central plant.

Mr. Gillham, who is an expert in such matters, will go over the local situation thoroughly and will then compile estimates and figures from which Mr. Miser will be able to decide whether or not local consumption would be likely to justify the expenditure required for a heating plant.

All kinds of fall and winter clothing now ready at Knoles.

## RESERVED SEATS FOR LOCAL BALL ATTENDANTS.

Reserved box seats have been made for Mayor Davis and city commissioners at the ball park in Springfield today when the much talked of ball game between the victorious teams of the St. Joseph school and the Stuart school will be staged. The boxes will be filled in the following order: Mayor Dunne, Prin. Stuart school, Mayor Schnepf, Springfield; Mayor Davis and Jacksonville delegation, Springfield board of education, ministers of the Protestant and Catholic churches. The proceeds of the game will go toward placing a statue of Patrick Henry at the St. Joseph school. Pat Wright, who is well known in baseball circles of this city, will umpire the game.

This cool weather should remind you that fall is here; see Knoles.

## REES SPEAKS WITH POWER OF CHRIST'S CLEANSING BLOOD

Evangelist Explains Atonement to Interested Audience at Last Meeting of Week—"The Modern Sodom" Tomorrow Afternoon.

That a doctrinal sermon need not be dry and argumentative but may be filled with earnestness and throbbing with human sympathy and hunger for souls was adequately proved Friday evening by Dr. Rees' address at the tent on the blood of Jesus and its cleansing power. With no theological, hair-splitting concerning the various theories of vicarious atonement, the evangelist struck straight to the heart of the question and spoke of the loving Redeemer and the meaning and effect of his tremendous sacrifice. As is usual in meetings held by Dr. Rees the evening service Friday closed the union revival services for the week until Sunday afternoon.

Great effort and many preparations have been made to make that service in all respects successful and full of great import for good to Jacksonville. "One of the greatest lectures of its kind" is the characterization made by those who have heard it of the 3 o'clock Sunday afternoon address to men, "The Twentieth Century Sodom." The music has come in for its share of attention. A chorus of six men will sing, aided by a special choir of sixteen voices. The glee club from the high school will participate and Mrs. Rees will assist in the music at the opening. In all the churches taking part, special women's prayer meetings will be held the time Sunday afternoon when the mass meeting for men is in progress.

The scripture lesson was read by the Rev. H. W. McPherson of Ashland after which Dr. Rees announced his text from the first chapter of first John and began his sermon on the power of Christ's blood.

## The Sermon.

"But if we walk in the light, as he is in the light, we have fellowship, one with another, and the blood of Jesus Christ, His son, cleanse us from all sin." 1 John, 1-7, was the text taken by Dr. Rees for his strong appeal to the unsaved. "I would not bring your attention to the dark side of this text," he said, "to the crucifixion, but rather to the blood to the redemption of a lost world. You see that 'no blood means remission and no remission means no heaven.' John says in Revelation, 'They have washed their robes and made them white in the blood of the lamb.' Let us note the nature of this blood."

"1. It is royal blood. Not only is Christ the Prince of Heaven, but he was a lineal descendant of the royal family of King David. We are too prone to pay the highest honor to royalty when it visits our shores and to forget him who said 'I am Alpha and Omega.' Some day we will all realize his royal grandeur and sing with one accord, 'Bring forth the royal diadem and crown him Lord of all.'"

"2. It is human blood. Christ's blood is that of a new humanity wrought by God through the Holy Ghost. The son of God was not honored when he came to earth. They saw him and believed him to be a human being. He was a human being with human blood."

"3. It is substitutionary blood. Some may call this a theory, but substitution is a spiritual fact. For we are all like sheep, have gone astray, and the Lord hath laid on him the iniquity of us all."

"This world does not need a new kind of gospel or a new preaching. We have not advanced one particle beyond the indescribable atonement and convincing power of the Holy Spirit. We need to come to the gospel of the ages so that with truth we can sing, 'In the cross of Christ I glory.'"

We need the atonement in order that the victory may be secure unto us. We need it that we may enter the new and upward way and become priests and kings before the Most High. We require it that the final victory may be ours, that we may be brought to heaven. When we say that his blood cleanse us from all sin, we mean all the many errors to which mortal man is liable. That word 'all' includes the sin of backsliding and of profanity. It includes the sin of drunkenness. The blood of the Master is the only sure remedy for this terrible sin, for it takes away the appetite and gives the victim the grace to overcome.

Mallory Bros. buy overcoats.

## MISSION FESTIVAL AT SALEM LUTHERAN.

An excellent program of special music has been provided for the annual mission festival of the Salem Lutheran church tomorrow and two speakers of high rank have been secured to give the addresses at the morning and afternoon services. The morning service, following the Sunday school at 9:30, will be held in German, and the Rev. Frederick W. Jass of Peoria will preach the sermon. The choir under the leadership of Prof. W. Bertram will sing the anthem, "Jauchset den Herrn." Mrs. Robert L. Stice will sing "Halleluia."

The afternoon service in English at 2:30 will consist of an address by the Rev. O. Boedler of Concordia college, Springfield; an anthem by the choir, "With Glad Rejoicing," and a solo, "Proclaim Throughout the Skies," by Mrs. R. L. Stice. Both services offerings will be taken for missions. The pastor and congregation extend to all a most hearty invitation to attend.

## SPECIAL SALE IN ALL DEPARTMENTS TO DAY AT HERMAN'S.

POWER BILL RENDERED. The city's bill for power for pumping from the Widenham & Daub wells in September is \$745.93. The amount is less than the month previous because power has been shut down for a number of days.

## Montgomery &amp; Deppe

"Years of Experience Have Proven to Me That the MAJESTIC Range IS the Best"

"Strange, that for years, I couldn't see that trying to get good work from an old, worn-out range, merely to save the price of a new one, was not true economy. My Great Majestic has more than earned its cost in the saving of fuel alone, because the open seams and joints in my old, worn-out range where the bolts were loose and the putty had crumbled away, made me burn twice as much fuel as necessary."

"Talk about luck in baking—'luck' is nothing but good oven and my Majestic oven is simply perfect. I can depend on it absolutely every day. I believe father and the children are happier and I know we have better meals at less expense with our Majestic."

**Don't Buy Any Range Sight Unseen**

Buying a range isn't an every day transaction. To be absolutely sure of complete satisfaction—don't buy from printed descriptions—see the Great Majestic (dealer in nearly every county in 40 states) compare it point for point with any other range. Then you can buy intelligently and be sure of a range that will last a lifetime—the

**Great Majestic Malleable and Charcoal Iron Range**

**A Perfect Baker—A Fuel Saver**

**Outwears Three Ordinary Ranges**

ONLY range made of malleable iron and charcoal iron. Charcoal iron WON'T RUST LIKE STEEL—malleable iron can't break. Put together with rivets—joints always absolutely tight. Body lined with pure asbestos board, covered with iron grate—you can see it—insuring a dependable baking heat with half the fuel required in ordinary ranges.

**All Copper Movable Reservoir—Other Exclusive Features**

Reservoir in direct contact with fire, heats through copper pocket pressed from one piece—exclusive patented feature. Oven thermometer—accurate all the time. All doors drop down and lock rigidly shut. Operates with patented ash pit—ash cup. Contains Greatest Improvement Ever Put In a Range—increasing strength and wear of a Great Majestic more than 50% at a point where other ranges are weakest. Ask about it. Best range at any price. We can furnish any size or style with or without legs. Come in and let us show them to you.

### SOCIAL EVENTS.

At a miscellaneous shower given last night at the home of Mr. and Mrs. Charles Fawcett of West North street, announcement was made of the engagement of Miss Catherine B. Prather to Mr. H. Austin Oots of Kansas City, Mo. The evening was spent in a most happy manner and Miss Prather was presented a number of beautiful gifts, among which was that of a book of advice, to which all contributed. After the book was filled it was read to the guests. Each gift the bride-to-be received was accompanied by a verse. Miss Prather is a graduate of Passavant hospital of the class of 1913 and its members were those present at the enjoyable gathering last night.

Mrs. A. J. Mac, who resides on South Church street, was given a happy surprise Friday evening, by twenty-five of her neighbors and friends. The evening was pleasantly spent and a three course luncheon was served.

### COUNCIL HELD EARLY

#### SESSION FRIDAY MORNING

Began Consideration of Utility Franchises at 7 o'clock—Commissioner Newman Withdrew From Meeting.

At the city council session Friday morning the utility franchise ordinance were given an informal reading. Mayor Davis arrived at the city building at 6:45 o'clock and found Commissioner Brennan and preceded him by a few minutes. Before the 7 o'clock whistles blew Commissioners Knollenberg and Engel arrived and shortly afterward Mr. Pyatt began the reading of the franchise ordinances. W. B. Miser, superintendent of the street railway and light companies, and F. W. Bedard, gas expert for the Illinois Traction system, were the only persons present other than the city officials. Commissioner Newman arrived about 8:30 o'clock and asked what the council was doing. When informed that the ordinances as presented by Mayor Davis were being read, he said he was not interested and withdrew from the session.

The ordinances were considered a section at a time but very few changes were made. It is likely that the company will soon give the notice required by law of its intention to ask for franchises and afterward the ordinances will be before the council for formal consideration.

### "SMILE AND THE WORLD SMILES WITH YOU." WEAR A SMILE HAT SOLD BY BRECKON & JENKINSON.

### INFANTRY TROOPS WITHDRAWN FROM COPPER STRIKE ZONE

Strike Sympathizer So Badly Beaten That He May Die—Thirty Additional Strike Breakers Arrive.

Calumet, Mich., Sept. 26.—The last of the infantry troops in the copper strike district will start for home tomorrow, leaving only about two hundred mounted men for patrol duty. They will have the assistance of one thousand deputy sheriffs.

C. C. Anderson, a Salt Lake City real estate agent, who has been in this district for some time and who has been friendly to the cause of the strikers, tonight was attacked by unidentified men at Copper City near here and so severely beaten that the attending physician says he may die. It is said the strikers had come to look on him as a spy.

Thirty additional strike breakers arrived at the Quincy mine today. This is the third party of men brought in by the Quincy company. Federation officials deny that any of their men at the Keweenaw county mines are deserting the union.

### THE BIRTH RECORD.

Born, Friday to Mr. and Mrs. Gus Francis of W. Morton avenue, a son. Born to Mr. and Mrs. Joel Joaquin of St. Louis, recently, a son.

Mrs. Patrick Hennessey has received word of the birth of a son to Mr. and Mrs. John Gallagher of Plainville. Mrs. Gallagher was formerly Miss Mary E. Taylor of this city.

For men only "Twentieth Century Sodom" Sunday afternoon.

ILLINOIS BANKERS ELECT. Chicago, Sept. 26.—The Illinois Bankers' association today elected officers as follows:

President, S. B. Montgomery, Quincy; vice president, J. S. Ainsworth, Cairo; treasurer, C. H. Fox, Chicago.

Mr. and Mrs. G. Roy Scott arrived yesterday from Chicago and were met at the Wabash station by several friends who had a carriage finely decorated for them. They will be at home on South Church street.

WILL OPEN BIDS TODAY. Bids will be opened today by Supt. Miser for the new building to be erected at the gas plant. The estimated cost is about \$10,000.

Hiram Cummings, who met with an accident at his home in Alexander, while digging a well, was brought to Passavant hospital yesterday by Dr. Robinson of that place.

Henry Slack of Franklin was among the arrivals in the city yesterday.

### LITERARY SOCIETIES

#### HOLD FIRST MEETINGS

Sigma Pi and Phi Alpha Give Programs and Banquets at Initial Gathering.

A most enthusiastic meeting of Sigma Pi society was held Friday night, embracing a literary program in Beecher hall and a banquet at Colonial Inn. A fine spirit prevailed at both gatherings. The program at the hall follows:

Declaimers—Dugger, Stotlar, Bullard. Readers—Stewart and McMillan. Essayist—Jensen. Extemporizer—Stewart Russell.

At the banquet N. L. Wyder of the class of '04 acted as toastmaster and the following toasts were given: "Sigma Pi in '85"—Prof. T. P. Carter.

"Real Meaning of Sigma Pi"—Edward Bullard. "Impressions of an Outsider"—Harlow Brown. "While in Whipple"—Clay Apple. "Football Prospects for 1913"—Coach Harmon.

Other speakers included Henry Kirby, Ensley Moore. The following were voted into the society: Clay Apple, Edward Alexander and Robert Capps. Phi Alpha Society.

The first meeting of the Phi Alpha society was well in keeping with the grand history of that organization. President Robbins Russell called the meeting to order in the presence of a large number of both members and visitors.

The following was the program: Essayist—Cohn. Declaimer—Mitchell. Orator—Kimmel. Extemporaneous speaker—R. Russell.

Select reader—Mangner. A pleasant feature of the occasion was the reception of new members and the following allied themselves with the society: Roy Clifton, Leroy Davis, Homer Wherle, Oma Kirkland, Mr. Sissler, Irwin Gummer, Leslie Edell, Howard Bale, Bryan McDavid, Lloyd DeLess, Joseph Looney and Mr. Trackery. Rev. Howard French was made an honorary member of the society.

The society then adjourned to the Peacock Inn, where a large number sat down to the banquet table and proceeded to have a grand old time Phi Alpha feast of reason and flow of soul.

After all had eaten the Phi Alpha song was sung with a will and President Russell introduced Carl Robinson as toastmaster of the evening and right well did the gentleman perform the duties assigned him.

The following toasts were given: Rev. A. F. Ewert, Ideals of Phi Alpha.

President Rammelkamp, Illinois College and Phi Alpha. T. W. Beadle, Phi Alpha Loyalty. C. E. Kimmel, Statistics of Phi Alpha.

Rev. Howard French, Ad Libitum. Hugh P. Green, Why For Phi Alpha?

The following visitors spoke: Edward Kornsmever, John DeLess, Julian Frisbie, Clarence Easley, W. A. Berryman, John Mitchell. The last was S. W. Nichols on the unprejudiced estimate.

Philologist Society. The first meeting of Philologist society was held last night. Temporary officers were elected as follows: Chairman, Land; secretary, Whistler; treasurer, Baker. A number of short speeches were given by Prof. Harris, Carl Robinson and Clay Apple. The society will be entertained next Friday night after the business meeting of the society.

### THE TEMPERATURES.

The temperatures for Friday, according to G. H. Hall, weather observer at Alexander, were maximum 64 and minimum 47. A rainfall of .10 inch was recorded.

Slightly specked Grimes Golden apples delivered at 35 cents per bu. Cannon-Kelly.

AT THE GRAND TODAY. The Kelly-Schuster company will appear in matinee performance this afternoon and play the final engagement of the week tonight. Good picture program afternoon and night.

R. K. Dearworth, assistant superintendent of the Prudential Life insurance company, made a trip to Waverly yesterday.

### TWO WILLS FILED FOR RECORD IN PROBATE COURT

Property of Francis Hart Bequeathed to Mrs. Hart For Life Time—Estate of George Blackburn To Be Held In Trust.

The will of the late Francis Hart has been filed in the office of County Clerk Boruff. It was drawn March 2, 1912 witnessed by John A. and Walter Bellati. The executors of the estate are Elmer and Lester Hart and E. T. Harrison. Mr. Hart left a valuable estate which includes about four hundred acres of land in addition to other property. The residence property on Sandusky street is willed to Mrs. Caroline Hart, wife of the deceased for life and at her death is to become the property of Mrs. E. T. Harrison, a daughter.

The farm land owned by Mr. Hart is also willed to his wife for life and it is his request that she continue to rent the land to the sons Elmer and Lester Hart, on the same terms they now have it. After the death of Mrs. Hart the farm property is to be divided as follows: to Elmer Hart, 148 acres in 16-16-9; to Lester Hart, 120 acres in 23-16-9; to Mrs. Anna Louise Harrison, 110 acres in 33-16-9.

### Will of George Blackburn.

By the will of George D. Blackburn which has also been filed in the office of the county clerk his farm three miles north of the city is placed in the hands of J. Weir Elliott and C. A. Johnson as trustees. They are to handle the property to the best advantage possible and to pay over the returns to Mrs. Luella Blackburn, wife of the deceased during her life time. At her death the property is to be sold and the proceeds divided equally among the four daughters of the deceased and a grandson, Arthur Glasgow, son of a deceased daughter. The four daughters are Sarah R. Cassandra Viola, Eva Idella and Bertha Florence Blackburn. Minor bequests of personal property are made to Frank Masters, Dr. Henry Blackburn, Chas. Blackburn and Fletcher Blackburn, nephews of the deceased and to Leslie M. Marshall, a relative of Mrs. Blackburn's. The will was drawn in September 1912 witnessed by L. F. Jordan and A. W. Cox.
